Subject: C2PC application for FCC ID N7NEM7355
Attachments: Latitude-Setup Guide.pdf

Dear Mark,

Thanks for informing me the situation of the user manual of the host PC submitted in this C2PC application.

Dell would like to confirm that the user manual in the application is the draft and it is for the Wi-Fi version of the host PC. Dell will provide the final version of the user manual that shows the rigid handle along with all other FCC required user information for both Wi-Fi and WWAN.

Since the WWAN antennas are mounted inside the rigid handle, WWAN will be nonfunctional if the rigid handle is removed. Attached is the installation guide that shows the host PC with the rigid handle. Please accept this as an amended exhibit of the user manual in the application. The final user manual containing the rigid handle will be provided as soon as it is available.

I hope this will satisfy the TCB to issue the C2PC grant as soon as possible for Dell to launch the product.

Regards,

Thanh Nguyen
