09U12924-1 FCC IC RF Exposure ... letter.pdf (35 KB..)

Hi Chris,

Q1: The co-location C2PC letter lists an FCC ID that does not exist in the FCC database. Is it possible that there was a typo (possibly missing a couple '-'s, as listed in the MPE report)? Please correct the C2PC Cover Letter.

<answer>pls see revised C2PC letter.

--add another co-location with a different WLAN radio: FCC ID: TWG-SDCCF10G, so you will see one more

MPE report 09U12924 besides the originally submitted 09U12837 MPE report.

Q2: The online CCS application form was completed using 0.203W power listed for the WCDMA 850 MHz mode, but the original Grant has 0.464W. Please confirm the power to be listed for this mode.

<answer>I got 0.203W from CCS database which you are the reviewer, and I believe I issued the grant.

However, the current FCC website does show 0.464W.

Q3r: The FCC requires that only authorized persons submit information for applications. The FCC has Ying Wang listed as the contact of record for Sierra Wireless. The C2PC Cover Letter has been signed by Bill Jones, and the Authorization letter to authorize Claire Hoque is signed by Ying Wang.

In order for Bill Jones to sign exhibits in this application he must be specifically authorized by Ying Wang or Claire Hoque to do so. Please update either the Authorization Letter or the C2PC cover letter exhibits as needed.

<answer>pls see revised C2PC letter.

Thanks,

Claire Hoque

Here is the revised Q3:

Q3r: The FCC requires that only authorized persons submit information for applications. The FCC has Ying Wang listed as the contact of record for Sierra Wireless. The C2PC Cover Letter has been signed by Bill Jones, and the Authorization letter to authorize Claire

Hoque is signed by Ying Wang.

In order for Bill Jones to sign exhibits in this application he must be specifically authorized by Ying Wang or Claire Hoque to do so. Please update either the Authorization Letter or the C2PC cover letter exhibits as needed.

Best regards,

Chris Harvey

Hi Chris,

For Q3, the FCC database lists Ying Wang as contact, so the auth. letter should be ok, and I use this auth. letters for many applications so far, could you pls revise Q3?

Hi Chi, pls address Q1.

Thanks,

Claire Hoque

Dear Claire and Thu,

You are listed as the Technical Contact for the above referenced TCB application. The following items need to be resolved before the review can be continued:

Q1: The co-location C2PC letter lists an FCC ID that does not exist in the FCC database. Is it possible that there was a typo (possibly missing a couple '-'s, as listed in the MPE report)? Please correct the C2PC Cover Letter.

Q2: The online CCS application form was completed using 0.203W power listed for the WCDMA 850 MHz mode, but the original Grant has 0.464W. Please confirm the power to be listed for this mode.

Q3: The FCC requires that only authorized persons submit information for applications. The FCC has Mr. Todd Van Cleave listed as the contact of record for Sierra Wireless. The C2PC Cover Letter has been signed by Bill Jones, and the Authorization letter to authorize Claire Hoque is signed by Ying Wang. In order for Bill and Ying to sign exhibits in this application they must be specifically authorized by Todd Van Cleave to do so. Please update the exhibits as needed.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Best regards,

Chris Harvey
