

### User Manual:

Please read this user manual carefully before installation. Keep user manual for future reference.

### Technical Data:

Model	Rated Voltage	Input Frequency	Rated Wattage	Rated Current	Lamp Cap
EU-13W	120V	60Hz	13W	210mA	E26

### Treatment of the lamp

- Please don't drop the lamp or push against it.
- Please don't disassemble the lamp, don't make alterations.

### Installation

- Can't be used in dimming circuit.
- Don't install inside a recessed area in the wall.
- Don't use lids without ventilation openings.
- Don't cover with a glass bowl.
- For lamps with a weight significantly higher than that of the lamps for which they are a replacement, attention should be drawn to the fact that the increased weight may reduce the mechanical stability of certain luminaire.

### Electrical connection

- Use only in indoor areas at an ambient temperature 25°C.
- Don't use as emergency lighting.
- To avoid electrical shock, don't install in damp or wet locations.

### Remarks

- Don't touch the lamp directly with your hand or face when it is in use to avoid burns.
- If the lamp is damaged, replace it by a new one and don't try to repair it in order to avoid hazards.
- If this lamp should be replaced by a heavier one, please take care that the mechanical stability of the luminaire could be impaired by the increased weight.
- Energy saving lamps containing a small amount of quicksilver/mercury (ca. 5 mg). Nevertheless the toxicity of this small amount requires a disposal as hazardous waste.
- In the case a lamp breaks, there is no direct risk for the healthiness, but don't touch powdery substances, improve air ventilation. Keep children away.

### NOTE

This device complies with part 18 of the FCC Rules.

- 1, Before commissioning this oven please read this instruction manual and keep it carefully.
- 2, There must be more than 30cm high space necessary above the top surface of oven.
- 3, Do not repair the oven yourself, please consult an authorized expert.
- 4, The contents of feeding bottles and baby food jars are to be stirred or shaken and the temperature is to be checked before consumption, in order to avoid burns.
- 5, Check the oven and the cable regularly for damage. If there is any kind of damage, the oven should not be used.

- Do not attempt to operate this oven with the door open since open- door operation can result in harmful exposure to microwave energy. It is important not to defeat or tamper with the safety interlocks.
- Carefully clean door seals and sealing surfaces.
- Do not operate the oven if it is damaged. It is particularly important that the oven door close properly and that there is no damage to the : (1) door(bent). (2) hinges and latches( broken or loosened). (3) door seals and sealing surfaces.
- Utensils should be checked to ensure that they are suitable for use in microwave ovens.
- When heating food in plastic or paper containers, check the oven frequently due to the possibility of ignition.
- Microwave heating of beverages can result in delayed eruptive boiling, therefore care has to be taken when handling the container.
- If smoke is observed, switch off or unplug the appliance and keep the door closed in order to stifle any flames.
- Egg in their shell and whole hard- boiled eggs shall not be heated in microwave ovens since they may explode.
- If the door or door seals are damaged. The oven must not be operated until it has been repaired by a trained person.
- Liquids or other foods must not be heated in sealed containers since they are liable to explode.

**Warning:**

- 1, It is hazardous for anyone other than a trained person to carry out any service or repair operation, which involves the removal of any cover which gives protection against exposure to microwave energy.
- 2, Only allow children to use the oven without supervision when adequate instructions have been given so that the children is able to use the oven in a safe way and understands the hazards of improper use.
- 3, If the supply cord is damaged, it must be replaced by the manufacture of its service agent or a similarly qualified person in order to avoid a hazard.
- 4, This product will make disturbance in AV product, if any disturbance is occurred, use different electrical source jack to supply electricity or use low power or away from them.
