Re: Request for Short term Confidentiality and for removal of certain documents from the FCC website
Gentleman:

In reference to the application under FCC ID NATTX172 ,and pursuant to Sections 0.457(d)(l)(ii) and 0.459 of the Commission's Rules, the Applicant hereby requests short tern confidential treatment of the accompanying information as outlined below:

Internal and external photos

As this product is currently undergoing a patent application and has not been shown to many customers and is currently not being sold, certain information should not be shown to outside companies for reasons of confidentiality. We did not ask for this originally due to some miscommunication on our part, but request this information be removed at this time.

These documents contain detailed information and about the product that **SmarTire Systems Inc.** considers to be proprietary, confidential, and a custom design and, otherwise, would not release to the general public. Since this design is a basis from which future technological products will evolve, **SmarTire Systems Inc.** considers that this information would be of benefit to its competitors, and that disclosure of the information in these documents would give competitors an unfair advantage in the market.

Sincerely,

A handwritten signature in black ink that reads "Rob Patterson". The signature is written in a cursive, slightly slanted style.

Robert G. Patterson
RF Manager
SmarTire Systems Inc.
