Re: FCC ID: NATTX433TV-1

Grantee: SmarTire Systems, Inc.

Gentlemen:

Spectrum Technology, Incorporated has tested the above referenced Intentional Radiator in accordance with the applicable requirements contained in the Parts 2 and 15 of Title 47, CFR. To the best of my knowledge, these tests were performed using the criteria established in ANSI C63.4-1992. The measurements made 1/24/01 demonstrated that the equipment complies with the limits established in Part 15.231( e).

The Open Area Test Site used for these measurements is located at Fluke Park II, Everett, Washington. Site information required by Public Notice 24541 in accordance with ANSI C63.4-1992 was filed with the FCC Authorization and Evaluation Division Sampling and Measurements Branch in July 1994 and most recently renewed in January 1998.

This site is also acceptable to Industry Canada for the performance of radiated measurements. Having showing compliance with RSP 100, Issue 7, section 3.3 Description of Open Area Test Site the file number IC 2089 was assigned on April 7, 1998.

Sincerely,

A handwritten signature in black ink that reads "Rod Munro".

Rod Munro

President  
Spectrum Technology, Inc.
