FCC ID: NBG009768T

Placing the FCC ID in a user accessible area of the device

To whom it may concern:

As an option to placing the FCC label on the exterior of the device, the FCC label is placed in an user accessible area as

- 1) The device is handheld.
- 2) The FCC identifier on additional documentation directs the user as to where to find the FCC label.
- 3) The user accessible area requires no special tools for access and the FCC label has not be placed on a removable part. (i.e. not on battery cover)
- 4) The FCC identifier, model no. or FCC logo must be on the label and must meet all general labeling requirements or policies that apply for Certification, Verification or DOC; e.g. for Certification, for handheld devices, the identifier must go on the label but the two part warning statement in Section 15.19(a)3 can go in the manual.

Sincerely,

Hella KGaA Hueck & Co.
