

FCC RF EXPOSURE INFORMATION

WARNING! *Read this information before using this product.*

In August 1996 the Federal Communications Commission (FCC) of the United States with its action in Report and Order FCC 96-326 adopted an updated safety standard for human exposure to radio frequency (RF) electromagnetic energy emitted by FCC regulated transmitters. Those guidelines are consistent with the safety standard previously set by both U.S. and international standards bodies. The design of this product complies with the FCC guidelines and these international standards.

CAUTION Use only the supplied or an approved antenna. Unauthorized antennas, modifications, or attachments could impair call quality, damage the product, or result in violation of FCC regulations.

Do not use the device with a damaged antenna. If a damaged antenna comes in contact with the skin, a minor burn may result. Please contact your local dealer for replacement antenna.

OPERATIONAL INFORMATION

This device was tested to comply with FCC RF Exposure requirements. A minimum separation distance must be maintained, as shown below, between the antenna and the user's body, limbs, head and hands. The gain of the antenna used must not exceed that specified below:

I. Minimum Separation Distance, Meters:	<u>0.3</u>
II. Antenna Gain, Not to exceed, dBi:	<u>2.5</u>
