Gerald,

SAR testing was done with three laptop PCs. All three of the PCs had express slots and SAR was performed with the card in the express slot. No adapters were used during SAR. We do not have these PCs here now and cannot provide additional pictures.

Best regards,

1st question in preceding corresp. referred to SAR not EMC setup - please provide details and/or close-up photo(s) showing card in slot.

Did host have actual ExpressCard slot, or PC Card slot and with adaptor?
