Response to FCC inquiry dated 3/27/2009 for:

FCC ID: NBZNRMUNDP-1D

Applicant: Novatel Wireless

Correspondence reference number: 37256

Form 731 Confirmation Number: EA980151

- 1) Exhibit entitled "LAPTOP HOST CERTIFICATION LETTER" states FCC ID PKRNVWUNDP-1D, which does not match this filing - need explain and/or revise. **A revised letter is being remitted.**
- 2) Your requests confidentiality letter shows Block Diagrams, Schematic, Parts List and Operational Description. Your exhibits show Operational Description request confidentiality. Please clarify. Please submit a new replacement confidentiality letter. **The confidentiality letter has been revised, showing the Operational Description only.**
- 3) Internal and external photos appear to indicate one model of regular notebook (not convertible-tablet) is intended in this filing, having all antennas located on left and right edges of display section; however filing also contains two op. desc. type exhibits entitled "ANTENNA DISTANCE OF AMG BUMP OUT" and "ANTENNA LOCATION OF ANG IN TABLET MODE" for convertible table host with antennas located at top edge of display section - please clarify / summarize all host product and antenna configurations requested under this filing. **A mistake was made on my part as I uploaded the incorrect antenna information. The device is small and does not have tablet capabilities. The photos are correct but the proper antenna diagram has been uploaded with this response.**
- 4) Filing mentions model "Latitude E4200" notebook - general info from Internet indicates model E4200 has 12.1 inch diagonal display, which if applicable for host product(s) of this filing then procedures of FCC KDB pub. 616217 should be applied - for RF exposure info, at present this filing has only a general MPE estimate for separate FCCID J9CUNDP-1D - please explain screen dimensions for all host products of this filing, and provide analysis and results per KDB pub. 616217 procedures. **A SAR report is being remitted with this response.**
