**RE: Class II permissive change for FCC ID: NC4-GEA1190148A**

TO WHOM IT MAY CONCERN:

GANTNER Electronic GmbH respectfully requests a class II permissive change for FCC ID: NC4-GEA1190148A, original grant date 09/26/2019.

The Major change filed under this application is:

Due to component shortage, IC1 (BTT6020) and IC3 (TPS26600) are no longer equipped and replaced by IC27 (NCP380) which only affects the power supply part and not the RF part. This means that only locks with 5V supply voltage (locks without USB/Light function) can be operated with the controller.

All other parts of the controller have remained the same.

Sincerely,

Georg Seidlich  
COO
