Permission for Wave Wireless to use the Tellumat Report compiled by Rheintech Labs

We hereby grant permission to Wave Wireless Networking, division of SPEEDCOM Wireless to re-use the test results for our MDR5800 (identifier ONJ-MDR5800ET) digital radio for the purpose of obtaining FCC approval for the same equipment under their name and identifier. The entire report, excluding schematics and block diagrams, can be duplicated in the Wave Wireless report. In order to keep the schematics and block diagrams confidential, we request that they are excluded from the Wave Wireless report. The Tellumat report may be referenced for the purpose of the schematics and block diagrams.

Sincerely,

Jeremy Vincent, Marketing Manager
