Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

REF: Speedcom Wireless International Corp.'s FCC ID: NCBSLTM
Confirmation #: EA97983, Correspondence ID: 15541

Dear Joe:

With reference to your correspondence ID 15541:

1. This device was not tested with an amplifier; therefore, no schematics of the amplifier are required.
2. The manufacturer was to send schematics of the radio. If you have not yet received them, please advise so I can follow up with them.
3. The manufacturer was to send the processing gain information. If you have not yet received this information, please advise so I can follow up with them.
4. I have uploaded the photos of the lightning arrester and the antenna. As above, there is no amplifier.
5. The operation description has already been sent on 8/29 under an earlier correspondence ID.
6. The verification of the length of the cables has already been sent on 8/29 under an earlier correspondence ID.
7. The professional installation information has already been sent on 8/29 under an earlier correspondence ID.

8. I have uploaded a revised Page 4 of the user's manual which contains the point to point installation instructions.

9. I have uploaded the confidential letter.

Should you have any questions or require any further information, please advise.

Regards,
Sharon Hoffman/TIMCO ENGINEERING, INC.
