WLAN declaration

We, Option nv, declare that the device, FCC ID: NCMOCG2101, Model Name: CG2101, does not have Ad Hoc mode on "non-US" and/or DFS frequencies. Also, the client software and associated drivers will not initiate any transmission on DFS frequencies without initiation by a master. This includes restriction on transmissions for beacons and support for ad-hoc peer-to-peer modes.

Moreover, for 2.4GHz part of this device, only channels 1~11, will be used in North America and all non-US frequencies and country code selection are disabled through proprietary software and is not user changeable.

Do not hesitate to contact me if you have any additional questions.
