FCC part 15b compliance for FCC ID NCMOMO0202-2

Dear ladies and gentlemen,

according to the manufacturer's description the changes between FCC ID NCMOMO0202-1 and FCC ID NCMOMO0202-2 only affect the receiver diversity that is activated for different bands in those products.

The measurements according to FCC part 15b are not affected in any way by this change. So the results for the certified FCC ID NCMOMO0202-1 are still valid or reuseable for the certification of FCC ID NCMOMO0202-2.

Kind regards

A handwritten signature in black ink that reads 'i. A. Hoell'.
