

## Request for confidentiality

**CONFIDENTIALITY REQUEST FOR 'MO0301', FCC-ID: NCMOMO0301E**

To Whom It May Concern:

This letter serves as an official request for confidentiality under the FCC Rule Section §0.459. We have requested that the schematic diagrams, Tune up procedure, Parts list and Block diagrams required to be submitted with this application be withheld from public review. The reason for this request is that these documents are company proprietary information that should never get into the possession of competitors, which would be harmful for our business.

In accordance with provisions of Section 0.457(d) of the Commission's Rules and Section 552(b)(4) of the Freedom of Information Act, we request permanent confidentiality for transmitter's exhibits, which contain Integration manual, Operation Description, Parts Lists, Block Diagram and Schematic Diagram. These exhibits contain proprietary, confidential and trade secrets material, which would not be routinely made available for public inspection.

Also, in accordance with FCC Public DA 04-1705, we request short-term confidentiality for exhibits which contain Internal Photographs and the User Manual. These exhibits contain pre-market information, which could give our competitors unfair advantage should this information be released before this product is actually introduced into the common marketplace

Do not hesitate to contact me if you have any additional questions.
