Declaration of Professional Installation

FCC ID.: NCY-SL24

IC: 2945A-SL24

Model: SL24

Marketing: The equipment associated with this filing is marketed and sold exclusively through a distributor network and is not sold to the general public or by mail order.

Professional installation: This equipment is professionally installed by trained individuals.

- Installation is controlled by the distributor and is accomplished by individuals qualified by the distributor.
- Installation is by trained individuals.
- Because the equipment requires critical alignment of point-to-point antennas and thus requires an understanding of path loss and use of the configuration software order to be installed, it can only be installed by trained and qualified personnel.

Application: The application of this equipment is for a network that is controlled by a network service provider. It is not intended for and does not lend itself to use by individuals.
