Federal Communications Commission  
Authorization and Evaluation Division

Request for additional models covered under existing FCC IDs:

Pursuant to CFR47 part 2.1043, we hereby request that the following model numbers be added to the following grants under the rules for a Class 1 permissive change:

For FCC ID: NCYM5830SSU: Add models P5830S-MU and P5830S-RU

For FCC ID: NCYM5830SSUEXT: Add models P5830S-MU-EXT and P5830S-RU-EXT

The only changes being made from the currently certified models are firmware related. No changes to transmit power output, modulation, frequency or stability are being made.

New user manuals for these models were developed to describe the firmware commands, but follow the general format of the certified models with the exact same FCC information.

Sincerely,

Christopher A. Gustaf
