731 Confirmation No. EA272169

Dear Mr. Dayhoff:

Upon your request on February 1, 2002 asked for the SAR Testes. The customer didn't want the SAR be done so they have reduced their output power to *235.125mW*. The corrected testing data and schematic has been uploaded.

Should you have any questions or more information is needed, please don't hesitate to ask us.
Thank you.

Sincerely yours,

Jack Tsai
Project Engineer
Training Research Co Ltd.
