Dear Sirs:

Thank you for helping us to review the FCC Certification application of EW-7126 product. We apologized that the brand name and model name list was sent to you so late. Since we have a lot of customers who sell Edimax's products in different brand names, model names and packages without changing the physical products and electrical character of products, we assure that all the models listed (attached to cover letter) are production models.

Look forward to having your approval.

Yours faithfully,

Edimax Technology Co., LTD.

Arthur Shen

R&D Manager
