REF: NEO60-2128SERIES, Part 90.219 Use of signal boosters.

This product meets the requirements of 90.219. It is intended for use in a tunnel environment using an in building antenna distribution system as the downlink antenna. The unit's uplink is connected to a base station via a fibre optic link.

If you have any further questions or comments do not hesitate to contact me.

Yours faithfully
