Declaration **2014-90-1**

Ref: NEOA218SERIES Professional Installation

Axell Wireless Ltd states in the User Manual that only suitably qualified, professional people should undertake the installation of the product.

By only using suitably qualified, professional personnel to install the device, installation of the antenna can be maintained, ensuring compliance with FCC RF exposure requirements and FCC rule part §90.219(c) – Ensuring that a Type B signal Booster does not exceed the 5W ERP requirement.

Date: 03/12/2014

A handwritten signature in black ink, appearing to read "Brian Barton", is written over a faint, illegible stamp.
