

FCC ID: NF250227

Circuit Description

The 27.145MHz crystal oscillator drives the base of Q4 the final/buffer amplifier. The modulation provided by Q2 and Q5. The output of Q4 has the matching network consisting of L1 and C2 that limit the harmonic content and effect the proper coupling of the antenna to the output stage.

Antenna, Ground and Power Source

The antenna consists of a 22cm long metal wire. There is no external ground connection. The ground is only that of the printed circuit board. Electric current is supplied by a 9 Volt ("6F22" size battery x 1) primary battery
