

## 1.2. Operation Description

The EUT is a 433MHz transmitter. The infrared remote control signal can be transferred to 433MHz radio frequency in ASK modulation. The transmission antenna is soldered on the EUT.

## 1.3. Tested System Details

QuieTek has verified the construction and function in typical operation. All the test modes were carried out with the EUT in normal operation, which was shown in this test report and defined as:

Pre-Test Mode	
EMI	Mode 1: Transmit
Final Test Mode	
TX	Mode 1: Transmit
