

Operational Description

This device is a 802.11g Wireless LAN Access Point which operates in the 2.4GHz frequency spectrum with throughput of up to 54Mbps which OFDM technique will be applied. If the signal to noise ratio is too poor which could not support 54Mbps, the 11Mbps data rate with CCK technique will be applied.

The transmitter of the EUT is powered by AC Adapter. The antenna is Dipole antenna with SMA reverse antenna connector.

For more detailed instruction, please take a look at the user's manual.
