RE: TOHOKU ALPS CO., LTD.

FCC ID: NHVWBU614

Dear Mr. Dennis Ward,

Regarding the above referenced application, please find our reply to the comments dated June 16, 2003:

- 1) Some of original data shows the data of noise floor of the measurement system. After improvement of the measurement system, re-measurement was carried out. Please see the submitted revised data of page 14.
- 2) 434MHz signal on page 15 is not the same signal as the fundamental frequency on page 14 of the report. 210MHz, 434MHz, and 867.84MHz signals show data of noise floor of the measurement system, because FCC requests to report at least 6 measurement data in accordance with ANSI C63.4.

We hope the above reply is satisfactory.

If any problems, please let us know.

Best regards,

Yukari Ito (Ms.)

UL Apex Co., Ltd.
