FCC Permissive Change. FCC ID: NI8QB450QP450

Dear Sir/ Madam,

We wish to apply for a permissive change for our product with FCC ID:
NI8QB450QP450

The product currently has modulation types with emission designator 11k2F1D.

We wish to add new modulation types with the following emission designators:

- 9k6F1D (12.5 KHz Channel)
- 20k0F1D (25 kHz Channel)

The additional modulation types would be implemented in Digital Signal Processing firmware.

This change only affects the firmware there will be no change to the hardware for this permissive change.

Yours Faithfully

A handwritten signature in blue ink, appearing to read "D Rowntree".
