

Electra Enterprises

div of Micro-Video Transmitter World Inc.

April 5, 2000

Federal Communications Commission,
7435 Oakland Mills Road
Columbia, Maryland 21046

I, Eddy Stevens of Electra Enterprises request that
the following be kept in confidentiality in our filing to the FCC.

ALL SCHEMATICS
ALL PARTS LISTS
ALL BILL OF MATERIALS
ALL PCB LAYOUTS

This is for the unit "NIM2400".

This is a proprietary design which is not currently being implemented in any existing equipment of a similar nature. Due to the global demand of wireless transmission of all forms of data this type of equipment is highly sought after in a very competitive market. It is of a very sensitive nature and disseminating any technical information regarding this design would be detrimental to it's commercial value.

The steps we have taken to keep this information confidential include routine background checks of all employees, all information is on a need to know basis. We request that the time period for protection of this design be indefinite.

Dated this 5TH day of APRIL 2000
