

December 21st, 2003

Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046

Dear FCC Examiner:

We hereby respectfully request under provision of section 0.459 of the Code of Federal Regulations that the

schematics,
bill of materials,
part lists,
block diagram,
and functional description

within this application be treated with confidential status and withheld from public disclosure.

This is a proprietary design which is not currently being implemented in any existing equipment of a similar nature. Due to the global demand of wireless transmission of all forms of data this type of equipment is highly sought after in a very competitive market.

It is of a very sensitive nature and disseminating any technical information regarding this design would be detrimental to it's commercial value.

This request is made under the provisions of Section 0.457(d) of the Commission's rules and also Section 552 (b) (4) of the Freedom of Information Act.

Applicant : Electra Enterprises.

Model: T-5800

FCC ID: NIMT5800

Sincerely,

Eddy Stevens

Manager

Electra Enterprises
