

TC-900 USER GUIDE

1. Tune your video receiver to 916.5 MHz
2. Connect power adapter at “Connector A”.
3. Connect a video source to the transmitter at “Connector B”.
4. The transmitted picture should now be seen on the monitor.
5. For best results make sure that the antenna is not obstructed.
6. **IMPORTANT!** Using the TC-900 closer than 10 feet to the receiver may result in a distorted picture.
