RE: DEXIN CORPORATION

FCC ID: NIYMWP5016

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) Please provide a block diagram for the RF circuitry that includes the frequencies as specified by CFR 2.1033(a)(5).
- 2) The FCC logo and phrase "FOR HOME OR OFFICE USE" on the label signifies a DoC approval. This is not necessary since the mouse does not attach via cables to a PC (see 15.3(r)). Please provide a new label with the FCC logo and phrase "FOR HOME OR OFFICE USE" removed.
- 3) The schematics contain reference designators but does not provide component values. Please provide either an updated schematic or component listing which goes with the schematic.
- 4) Two pages of the schematic appear identical except one is labeled revision 1 and the other revision 2. Please comment.
- 5) The manual does not include the statements of 15.21 & 15.105 (these are necessary for the receiver/PC peripheral portion of the product).
- 6) Please provide photograph that clearly shows (labeled) where the antenna of the product is located.

Timothy R. Johnson
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
