

Wistron NeWeb Corporation

Additional Declaration about L-452 host

Both WLAN cards within the L-452 host can not use the same channel number. L-452 has additional power reduction of 1 dB for 2.4 GHz - 802.11n(20) mode. This was fixed in the software of the L-452 host, as implemented by the manufacturer.

End users cannot change this.
