RE: Wistron NeWeb Corp.

FCC ID: NKRDRUC

After a review of the submitted information, I have a few comments on the above referenced Application.

Technical:

- 1) The exhibit for label location does not appear to define/show the placement of the label. Please update.
- 2) For your information (no response is required for this item). Page 33 of the users manual states UNII where it should state USA. Also, output power for 802.11g appears +13 dBm while the measured power was +18 dBm.

Timothy R. Johnson
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
