

Let's Get Started ▶

1

Get The App

Download the free Zuble™ app from the App Store on your iPhone™, or Google Play™ on your Android™ phone. Sign Up. Follow the directions to setup your account and start Zuble Key activation.*

* Tip: You can also complete this setup online at my.zuble.co.

2

Activate The Key

Before proceeding, make sure your Zuble device is associated with your Verizon data plan through a Verizon authorized retailer, or at verizonwireless.com/certifieddevice.

When prompted for an activation code, scan the QR code on the front of this guide. If you already have an account, activate from Menu > Zuble Keys.

3

Install the Key

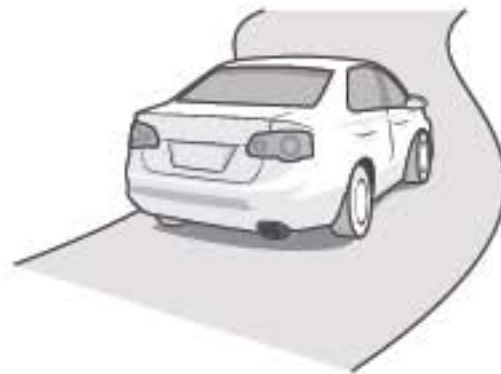

Firmly push the Zuble Key into the OBDII port (underneath your dashboard). A blue light will flash when inserted.

To find your port, visit zuble.com/findmyport.

4

Take a Drive

Take a trip to complete your Zuble Key activation. You'll get an email notification when complete.

5

Connect to In-Car WiFi

Turn on your car's ignition and wait about 30 seconds. On your mobile device, go to WiFi Settings, and find the network Zuble In-Car WiFi. Use the password on the front of this guide. Repeat for each device you want to connect.

Activating Verizon Service

This Zubie Key must be activated on a Verizon data plan. If it wasn't activated at time of purchase, you can activate online.

1. Before you start, please have your IMEI and SIM information on hand. This can be found on the side of the box.
2. Go to www.verizonwireless.com/certifieddevice.
3. Follow the instructions on the Verizon website to add the Zubie Key to your existing wireless account or create a new account.
