Re: Supersede request for FCC ID: **NKRM2M6270TDK**; Granted on **04/29/2013**

To Whom It May Concern,

We hereby request to supersede the original submitted RF Exposure Report. Though the result of the original report shows that SAR testing was not required under calculation with peak power, we would still like to make correction to the original report by using the data calculated with average power to prevent questionable issues from the FCC in the future.

Please find the updated RF Exposure Report:

File name: **RF Exposure_NKRM2M6270TDK_for supersede 0523.pdf**.

If you have any questions, feel free to contact us. Thank you.

Regards,

Daniel Lee

Vice-President
