Attn: OET Dept.

Referencing test data across separate equipment authorization

Original FCC ID: NKS-MS5

Original Grant Date: 03/30/2015

Applicant: PeopleNet Communications Corporation

Dear Examiner,

This is to request an application of referencing test data across separate equipment authorization for a new FCC ID: NKS-MS5N.

1. PeopleNet Communications Corporation declares on its sole responsibility that the NKS-MS5N meets all the essential requirements of the applicable FCC rule Part 15.247 DTS, DSS & Part 15.407 NII.
2. The only change between NKS-MS5 and NKS-MS5N is NFC Chip , PCB layout near the NFC Chip and components that relate to NFC fuction.
3. Spot-check data based on the worst-case result in the original FCC ID: NKS-MS5 filing has been submitted with this application for verification, please refer to report number:E2/2017/10050 for spot-check data.
4. The test reports exhibited under original FCC ID: NKS-MS5 will be referred for the new FCC ID: NKS-MS5N as below:  
E2/2015/10033 Part 15.247 DSSS, E2/2015/10034 Part 15.247 DTS  
E2/2015/10035 Part 15.247 DTS, E2/2015/10036 Part 15.407 NII  
E2/2015/10038 Part 15.407 DFS
5. WLAN and Bluetooth transmitters would not simultaneously operate. Though the users can use WLAN and Bluetooth simultaneously, but the real situation is that WLAN and Bluetooth are used by time sharing and no overlap transmission.

Should you have any question, please have my best attention.

Sincerely yours,

---

Albert Wong / Engineering, PeopleNet Communications Corporation
