Class II Permissive Change

FCC ID: NM5-LUC2400E

The purpose of this Permissive Change is to include the YDI HP-90 series of directional antennas in the above Part 15 Certification.

The RF Measurement Report dated May 2, 2002 from National Certification Laboratory demonstrates that the emissions from the Certified System using the YDI HP-90 antennas comply with FCC Rules.

The two new antenna models are:

HP90-16

HP90-13

Specifications for these antennas are also included with this Application.

Regards,

A handwritten signature in black ink, appearing to read 'Mike Foster', is written over a vertical line.
