

Re:

Applicant: High Tech Computer Corp

FCC ID: NM8CAVA100

Form 731 Confirmation Number: EA643282

Date of Original E-Mail: 06/12/2007

Correspondence Reference Number: 33220

Subject: FCC Equipment Authorization System

Test reports indicate WCDMA in 800 MHz band, but op. description. Unclear what are all actual transmit modes and frequencies; also form 731 did not request WCDMA 800 MHz line-entry. Please explain and/or revise where appropriate. If WCDMA 800 is intended, please state requested form 731 line-entry.

<Response>

Dear Diane,

The product does not have WCDMA 800MHz. The UMTS800 referenced in the original OpDes document is a typo and it should be UMTS850. We apologize for the mistake and a revised OpDes has been uploaded to the filing. Also, please help us adding a WCDMA 850M as show below. Thank you so much for your help.

WCDMA 850M line-entry

Frequency range	Power	Emission designator
826 - 847	0.136 (WCDMA)	4M70F9W

Best regards,

ADT
