

Dear Diane,

Re: FCC ID NM8HERM100
Applicant: High Tech Computer Corp
Correspondence Reference Number: 30966/30972/30989

Further to question #2 and response in last correspondence, e.g., user manual says device has UMTS/W-CDMA 850/1900 for US - please submit full EMC and SAR test data for W-CDMA modes, according to applicable OET/Lab test guidance (contact OET/Lab @ www.labhhelp.gov if needed).

Please also advise requested amendment for Form731 freqs, powers, etc.

"Functionality

UMTS (2100 for Europe, 850/1900 for USA) GSM/GPRS/EDGE (850, 900, 1800, and 1900)"

<Response>

We have conducted the Full EMC and SAR test for UMTS/W-CDMA 850/1900 modes and reports submitted. Also, extra frequency spec for Form 731 added. Please find them and let us know if further info is required. Thank you very much for your attention and help.

Best regards,

ADT
