

Turning off Home dialing

If you prefer to manually enter complete phone numbers to call while roaming, you can turn off Home dialing.

1. From the Home screen, press , and then tap **Settings > Call**.
2. Select the **Home country** check box.

Call services

HTC Wildfire S can directly link to the mobile phone network, and enable you to access and change the settings of various phone services. Call services may include call forwarding, call waiting, voicemail, and more. Contact your mobile operator to find out about the availability of call services.

To open call services, press  from the Home screen, and then tap **Settings > Call**.

Fixed Dialing Numbers	Restrict outgoing calls to a fixed set of numbers. To enable this feature, you must know your SIM card's PIN2 code.
Voicemail service	Shows the current voicemail service being used.
Voicemail settings	Specify another voicemail number aside from the voice mail number on your SIM card.
Clear voicemail notification	If you have a notification of a new voicemail, you can clear the notification with this option.
Phone settings	Edit the call reject message, choose whether to open the message editor when you reject a call with a message, and choose whether to allow automatic saving of an unknown contact number when a call with that number ends.
Cell broadcast	Enable or disable receipt of cell broadcast messages from your service provider.
Cell broadcast settings	Configure channels and language for cell broadcast messages.
Call forwarding	Select how you want to handle busy, unanswered, and unreachable calls. You can also set the call forwarding option for all incoming calls.
Call barring settings	Choose whether to block various categories of incoming and outgoing calls.
Additional call settings	Enable or disable operator services such as caller ID and call waiting.
Home country	Enable or disable the Home dialing feature.
Home dialing	Set the country code to be automatically added before the phone numbers you dial while you're roaming.

Accounts	Add, modify, or remove Internet calling accounts. You can also choose whether to receive incoming Internet calls.
Use Internet calling	Select whether to use Internet calling for all calls you make or for Internet address calls only, or to be asked which you prefer for each call you make.

Turning Airplane mode on or off

In many countries, you are required by law to turn off the phone while on board an aircraft. A way to turn off the phone function is to switch your phone to Airplane mode.

When you enable Airplane mode, all wireless radios on your phone are turned off, including the call function, data services, Bluetooth, and Wi-Fi. When you disable Airplane mode, the call function is turned back on and the previous state of Bluetooth and Wi-Fi is restored.

To turn Airplane mode on or off, press and hold POWER, and then tap **Airplane mode**.

When enabled, the Airplane mode icon  is displayed in the status bar.

Messages

Opening Messages

Keep in touch with important people in your life. Use the Messages app to compose and send text (SMS) and multimedia messages (MMS).

From the Home screen, tap  > **Messages**. The All messages screen opens, where all your sent and received messages are neatly grouped into conversations, by contact name or phone number.

- Scroll up or down the list of conversations by swiping your finger on the screen.
- Tap a contact name or number to view the exchange of messages.

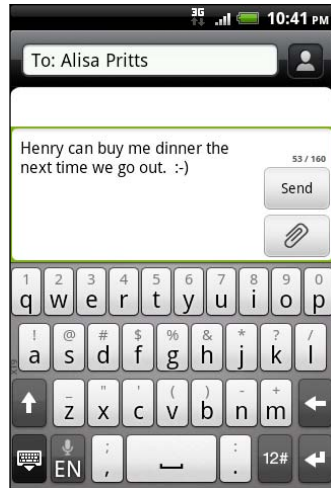

You can also view your messages on the Home screen with the Messages widget.

Sending a text message (SMS)

1. From the Home screen, tap  > **Messages**.
2. Tap **Compose message**.
3. Fill in one or more recipients. You can:
 - Enter the first few letters of a contact name or starting digits of a mobile number. As you type, matching names with phone numbers from your stored contacts are displayed. Tap a name or one of the contact's numbers.
 - Tap , and then select the phone numbers of the contacts to whom you want to send the message. You can also select contact groups as recipients. When you have selected all the message recipients, tap **OK**.
 - Enter the complete phone numbers directly in the To field.

4. Tap the box that says **Add text**, and then enter your message.

- There is a limit on the number of characters for a single text message (displayed above the **Send** button). If you exceed the limit, your text message will be delivered as one but will be billed as more than one message.
- Your text message automatically becomes a multimedia message if you enter an email address as the recipient, add a message subject, attach an item, or compose a very long message.

5. Tap **Send**, or press **↶** to save the message as a draft.

Sending a multimedia message (MMS)

1. From the Home screen, tap  > **Messages**.
2. Tap **Compose message**.
3. Fill in one or more recipients. You can:
 - Enter the first few letters of a contact name or starting digits of a mobile number. As you type, matching names with phone numbers and email addresses from your stored contacts are displayed. Tap a contact's number or email address. Email addresses will be displayed when **Show email address** is selected in Recipient list settings.
 - Tap , and then select the phone numbers of the contacts to whom you want to send the message. You can also select contact groups as recipients. When you have selected all the message recipients, tap **OK**.
 - Enter the complete phone numbers or email address directly in the **To** field.
4. To add a subject line, press  and then tap **Add subject**.
5. Tap the box that says **Add text**, and then enter your message.

6. Tap  and then choose the type of attachment.

Picture	Select Camera to take a photo and attach it, or Gallery to attach a photo from your storage card.
Video	Select Camcorder to capture a video and attach it, or Videos to attach a video from your storage card.
Audio	Select Voice Recorder to make a voice recording and attach it, or Music & sounds to attach a music file or voice recording from your storage card.
App recommendation	Choose an app you've installed from Android Market that you want to share with others. The URL from which the app can be downloaded will be inserted to your message.
Location	Add your current location (requires GPS to be turned on), or a location you pick on a map to your message.
Contact (vCard)	Select a contact, and then select the information to attach.
Appointment (vCalendar)	Select the calendar event you want to attach.

7. To see options for replacing or reviewing your attachment, tap . You can also press , then tap **Remove** to start over.
8. Tap **Send**, or press  to save the message as a draft.

Creating a slideshow

- After you've added either a photo, video, or audio in the multimedia message you're composing, tap  > **Slideshow**.
- Do any of the following:

Add a slide	Tap  , and then choose to add a photo or a video.
Add music or a voice recording to a slide	Right after adding a slide, tap  > Audio .
Add a caption to a slide	Tap the box that says Add text .
Edit a slide	Tap  , and then choose to replace, remove, or set the duration of the slide.
Preview the slideshow	Press  , and then tap More > Preview . Tap once on the preview screen to see playback controls.

- When finished, tap **Send**, or press  to save the message as a draft.

Resuming a draft message

1. On the All messages screen, press , and then tap **Drafts**.
2. Tap the message and then resume editing it.
3. Tap **Send**.

Viewing and replying to a message

Depending on your notification settings, the phone plays a ringtone, vibrates, or displays the message briefly in the status bar when you receive a new message. A new message icon  is also displayed in the status bar.

1. To open and read the message, you can:
 - Press and hold the status bar, and then slide your finger down to open the Notifications panel. Then tap the new message notification.
 - Open the Messages app to access and read the message.
2. While reading the message, you can:

Reply with a text message	Tap the box that says Add text , enter your reply message, and then tap Send .
Reply with a multimedia message	Tap the box that says Add text , enter your reply message, tap  to choose an attachment for your message, and then tap Send .
Call or save a phone number contained in the message	Tap the phone number. Then choose whether to dial the number or add it to your contacts.
Open a link in the message	Tap the link to open it in the web browser.
Send to or save an email address contained in the message	Tap the email address. Then choose whether to send an email, send a multimedia message, or save the email address to your contacts.
Forward a message	Press and hold the message to open the options menu, and then tap Forward .
Check message details	Press and hold the message to open the options menu, and then tap View message details .

Replying to another phone number of the contact

When a contact has multiple phone numbers stored on your phone, you'll see the particular phone number used within the message. There's also a bold letter before the phone number to indicate the number type (for example, **M** stands for **Mobile**).

Keep in mind that your response will be sent to the phone number of the latest message you've received from this contact.

1. On the All messages screen, tap a contact (or phone number) to display the exchange of messages with that contact.
2. Tap the box that says **Add text**, then enter your reply message
3. Press  and then tap **More > Recipient phone number**.
4. Select another phone number of this contact, and then tap **OK**.

Viewing and saving an attachment from a multimedia message

If you are concerned about the size of your data downloads, check the multimedia message size first before you download it.

When **Auto-retrieve** in MMS settings is disabled, only the message header is downloaded. To download the entire message, tap the **Download** button at the right side of the message.

- If there's a media attachment such as a photo or video in a received message, tap it to view the content.
- If the attachment is a contact (vCard), tap it to view the contact information, then tap **Save** to add to your contacts.
- If the attachment is an appointment or event (vCalendar), tap it to choose the calendar where to save it, and then tap **Import**.
- To save the attachment to your storage card, press and hold the multimedia message, and then choose to save the type of attachment from the options menu.

Push messages

Push messages contain a web link. Often, the link will be to download a file that you have requested, for example a ringtone.

When you receive a push message, a notification icon  is displayed in the status bar.

Opening and reading a new push message

1. Press and hold the status bar, and then slide the status bar down to open the Notifications panel.
2. Tap the new message.
3. Tap **Visit website**.

Viewing all your push messages

1. From the Home screen, tap  > **Messages**.
2. Press , and then tap **Push messages**.

You can only see this option if you've previously received push messages.

Managing message conversations

Protecting a message from deletion

You can lock a message so that it will not be deleted even if you delete the other messages in the conversation.

1. On the All messages screen, tap a contact (or phone number) to display the exchange of messages with that contact.
2. Tap the message that you want to lock.
3. Tap **Lock message** on the options menu. A lock icon  is displayed at the right hand side of the message.

Copying a message to your SIM card

1. On the All messages screen, tap a contact (or phone number) to display the exchange of messages with that contact.
2. Tap the message, and then tap **Copy to SIM**. A SIM card icon  is displayed at the right hand side of the message.

Deleting a single message

1. On the All messages screen, tap a contact (or phone number) to display the exchange of messages with that contact.
2. Tap the message that you want to delete.
3. If the message is locked, tap **Unlock message** on the options menu, and then tap the message to display the options menu again.
4. Tap **Delete message** on the options menu.
5. When prompted to confirm, tap OK.

Deleting several messages within a conversation

1. On the All messages screen, tap a contact (or phone number) to display the exchange of messages with that contact.
2. Press  and then tap **More > Delete**.
3. Tap **Delete by selection**.

You can also tap **Delete by phone number** if the contact used multiple phone numbers throughout the conversation and you want to delete the messages sent from a particular number.

4. Select the messages you want to delete and then tap **Delete**.

Deleting a conversation

1. Do any of the following:
 - On the All messages screen, press and hold a contact (or phone number) whose messages you want to delete, and then tap **Delete**
 - While looking at the exchange of messages in a conversation, press  and then tap **More > Delete > Delete thread**.

Any locked messages in the conversation thread will not be deleted unless you select the **Delete locked messages** check box.

2. When prompted to confirm, tap OK to delete the entire thread.

Deleting several conversations

1. On the All messages screen, press  and then tap **Delete**.
2. Select the conversation threads you want to delete.
3. Tap **Delete**. Any locked messages will not be deleted.

Setting message options

On the All messages screen, press  and then tap **Settings**.

Notifications	<ul style="list-style-type: none"> ▪ Receive a notification in the status bar and set your phone to vibrate or play a sound when a message arrives or when a message is not sent successfully, and choose a notification sound. ▪ Allow your phone to show pop-up notifications on the screen when messages are sent successfully or not, or disable this option.
Text messages (SMS)	<ul style="list-style-type: none"> ▪ Receive a report on the delivery status of your message. ▪ View or change the message service center number used. (We recommend that you don't change the number here as it may cause problems in receiving and sending messages.) ▪ View or delete text messages stored on your SIM card, or copy SIM card messages to your phone's memory.
Multimedia messages (MMS)	<ul style="list-style-type: none"> ▪ Receive a report on the delivery status of your message. ▪ Receive a report whether each recipient has read the message or deleted it without reading. ▪ Automatically download complete MMS messages including the message body and attachments in your service area and when roaming. ▪ Set the message priority and maximum file size of MMS messages. If the MMS message file size is exceeded, the message won't be sent.
General	<ul style="list-style-type: none"> ▪ Search and display the sent message history, call history, and email addresses of stored contacts when you're adding message recipients. ▪ Choose the maximum number of text or MMS messages to store in each conversation thread (excluding locked messages), and enable automatic deletion of unlocked older messages when set limits are reached. ▪ Forward received text and MMS messages to another phone number or email address. (This may incur extra fees from your mobile operator.)

People

Transferring contacts from your old phone

Easily transfer contacts from your old phone to your new HTC phone through Bluetooth. Depending on your old phone's model, you may also transfer other types of data such as calendar events and text messages to your new phone.

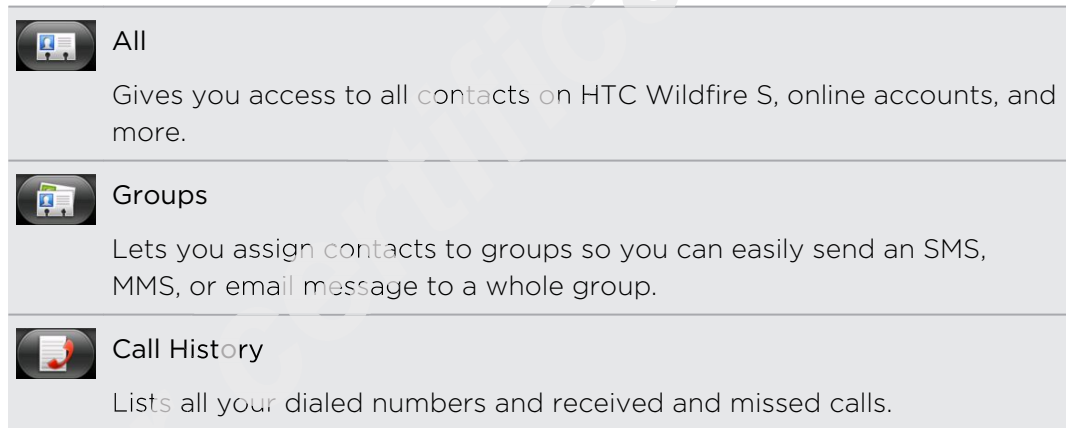

1. From the Home screen, tap  > **Transfer Data**.
2. Tap **Next** to begin.
3. Choose your old phone's name and model.
4. On your old phone, turn Bluetooth on and set it to discoverable mode.
5. On your new HTC phone, tap **Next** to continue. Your new phone automatically turns Bluetooth on and searches for Bluetooth devices.
6. From the device list, choose your old phone and then tap **Next**. Your new HTC phone then tries to pair with your old phone. You'll see a security passkey on the screen.
7. On your old phone, enter this passkey or simply confirm it.
8. Select the **Contacts** check box (and other supported types of data you want to import), and then tap **Next**.
9. When your new HTC phone finishes importing data, tap **Done**.

About the People app

With the People app, easily manage your communications with your contacts via phone, messaging, and email. You can also link your contacts to their social network accounts like Facebook and Twitter to see their updates and events from these accounts all in one place.

And that's not all. If you have the same contacts from different sources, People lets you merge their contact information so you won't have duplicated entries in your contacts list.

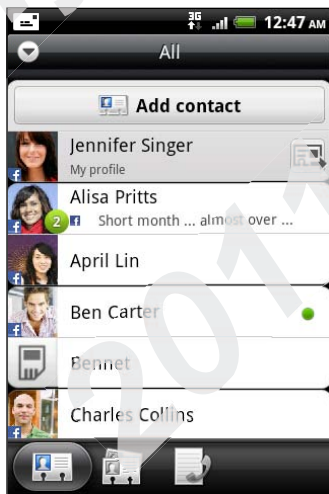

1. From the Home screen, tap  > **People**.
2. Tap one of the following tabs:

Your contacts list

The People app's All tab  shows all contacts on your phone and from the online accounts you're logged in to.

Your contacts list also displays the contacts stored on your SIM card (usually marked with the SIM card icon ).

From the All tab, you can:

- Open or update your contact information.
- Create, edit, or find contacts.
- View instant status updates when you've linked the contact to his or her social network account.
- Tap the contact's name to open the contact details screen for that contact.
- See a notification icon  when the contact has sent you a new message, tried to call you, updated his or her social network accounts, or when it's the contact's birthday.

Setting up your profile

Store your personal contact information in **My profile** to easily send it to other people.

1. From the Home screen, tap  > **People**.
2. On the All tab, tap **Me**.

If you're logged in to your Facebook account through Facebook for HTC Sense, instead of **Me**, you'll see your Facebook name. Tap your name, press , then tap **Edit**.

3. Enter your name and contact details.
4. Tap **Save**.

Importing contacts from your SIM card

You can copy all your SIM contacts to HTC Wildfire S. Import them as phone contacts, Google contacts, or Exchange ActiveSync contacts, if you have set up the relevant accounts.

1. From the Home screen, tap  > **People**.
2. On the All tab, press , and then tap **Import/Export** > **Import from SIM card**.
3. If you have Google or Exchange ActiveSync accounts set up on HTC Wildfire S, tap the type for the imported contacts.
4. Do one of the following:
 - Tap one or more SIM contacts you want to import.
 - To import all contacts, press , and then tap **Select all**.
5. Tap **Save**.

Adding a new contact

1. From the Home screen, tap  > **People**.
2. On the All tab, tap **Add contact**.
3. Select the **Contact type**, for example Google or Microsoft® Exchange ActiveSync. This determines which account the contact will sync with.

Some fields may not be supported when you're adding contacts to your SIM card.

4. Tap the **Name** field, enter the first and last name of the contact, then tap **OK**.
5. Enter the contact information in the fields provided. Press  if you want to close the onscreen keyboard first and easily scroll through the other fields.
6. Tap **Save**.

Importing a contact from an Exchange ActiveSync account

You can search for a work contact from your Exchange ActiveSync account, and then copy it on HTC Wildfire S.

You need to have your Exchange ActiveSync account set up on HTC Wildfire S first.

1. From the Home screen, tap  > People.
2. Press , and then enter the name.
3. Tap . Under Company contacts, matching names are listed.
4. Tap the name of the contact you want copied on HTC Wildfire S, and then tap Save to People.

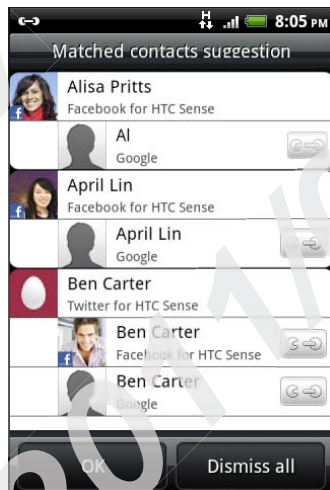

Merging contact information

If you have the same contacts on HTC Wildfire S, Google Account, and social network accounts such as Facebook and Twitter, HTC Wildfire S will try to combine them automatically or let you decide which contacts to combine. Combining the same contacts avoids duplicated entries in your contacts list.

Accepting matched contacts suggestions

When your phone finds contacts that can be merged, you'll see a link icon  in the notifications area of the status bar.

1. Slide the Notifications panel down, and then tap **Matched contacts suggestion**. Your phone displays all suggested contacts that you can merge.

2. To merge, tap .
3. Tap OK.

If you don't want to merge any of your contacts, tap **Dismiss all**.

Viewing a list of all your linked contacts

1. From the Home screen, tap  > **People**.
2. On the All tab, press , and then tap **More** > **Linked contacts**. The All linked contacts screen then opens where you can see the account types and information merged.
3. You can choose to break the link of an account type or relink.
4. When you're done, tap **OK**.

Manually merging contact information

1. From the Home screen, tap  > **People**.
2. On the All tab, tap the name of the contact (not the icon or photo) you want to link.
3. On the upper-right corner of the screen, tap  or  (if there are suggested links).
4. On the screen, you can:
 - Under **Suggest links**, tap  to link the contact to an account.
 - Under **Add contact**, tap one of the options to link to another contact.
5. Tap **Done**.

Breaking the link

1. From the Home screen, tap  > **People**.
2. On the All tab, tap the name of the contact (not the icon or photo) whose link you want to break.
3. On the upper-right corner of the screen, tap .
4. Under the **Linked contacts** section, tap  beside an account type to break the link.
5. Tap **Done**.

Filtering your contacts list

After adding a new account to sync with HTC Wildfire S, you'll be asked whether to add contacts from that account the next time you open the People app. You can choose to only display contacts from particular account types (for example, Google contacts or Facebook contacts).

1. From the Home screen, tap  > **People**.
2. On the All tab, press , then tap **View**.

3. Select the types of contacts you want to show in your contacts list.
You can also choose how you want to display and sort your contacts.
4. Tap Done.

Searching for a contact

1. From the Home screen, tap  > People.
2. Press , then enter the first few letters of a contact's name. Matching contacts are displayed.
3. Tap the contact to open his or her contact details screen.

Backing up your contacts to the storage card

1. From the Home screen, tap  > People.
2. Press , and then tap Import/Export > Export to SD card.
3. Select an account or type of contacts to export, then tap OK.

Importing contacts from the storage card

You can only import contacts that were exported to the storage card using the Export to SD card feature.

1. From the Home screen, tap  > People.
2. Press , and then tap Import/Export > Import from SD card.
3. If you have Google or Exchange ActiveSync accounts set up on HTC Wildfire S, tap the type for the imported contacts.

Contact information and conversations

When you tap a contact on the People screen, the contact details screen opens, showing you the information you've stored or linked for that contact.

The contact details screen has the following tabs:

Details

Shows the information you have stored for the contact. Get in touch with the contact directly by tapping any of the displayed methods. For example, if the contact has a stored work phone number, tap **Call work**.

Messages

Shows your exchanged SMS messages with the contact. You can reply to the contact's message directly from this tab.

**Mail**

Shows all the email you have received from the contact. Tap an email to view it.

**Updates and events**

Shows the contact's updates and events from social network accounts you've linked like Facebook, Twitter, and Flickr.

**Gallery**

Shows the linked contact's Facebook and Flickr albums and photos.

**Call History**

Lists all your incoming, outgoing, and missed calls to and from the contact.

Editing a contact's information

1. From the Home screen, tap > **People**.
2. On the All tab, press and hold the contact, and then tap **Edit contact**.

You cannot edit the contact information of a Facebook friend.

3. Enter the new information for the contact.
4. Tap **Save**.

Deleting contacts

1. From the Home screen, tap > **People**.
2. On the All tab, press , and then tap **Delete**.
3. Select the contacts you want to remove, and then tap **Delete**.
4. When prompted, tap **OK**.

Sending contact information as a vCard

Easily share your own contact information or any contact on HTC Wildfire S.

1. From the Home screen, tap > **People**.
2. On the All tab, do the following:

To send	Do this
Someone's contact information	Press and hold the name of the contact (not the icon or photo) whose contact information you want to send, and then tap Send contact as vCard .

To send	Do this
Your contact information	<ol style="list-style-type: none"> 1. Tap [Your name] My profile. 2. Press , and then tap Send my profile.

3. Choose how you want to send it.

4. Select the type of information you want to send, and then tap Send.

Contact groups

Assign contacts to groups so you can easily send a message or email to a whole group. You can also sync groups on HTC Wildfire S with the groups in your Google account, accessible via your computer's web browser. We've also added the Frequent group as a special group type that automatically stores the contacts you dial or get calls from the most.

Creating a group

1. From the Home screen, tap  > People.
2. On the Group tab, tap Add group.
3. Enter a name for the group, and then tap Add contact to group.
4. Select the contacts you want to add to the group, and then tap Save

If your contacts list is long, you can use the search bar to search for contacts quickly, or press  to hide the onscreen keyboard and scroll through the list.

5. Tap  to select a photo for the group.
6. Tap Save.

Editing a contact group

1. From the Home screen, tap  > People.
2. On the Group tab, press and hold the group, and then tap Edit group.

3. You can:
 - Tap the group name to change the name. You can only change the name for groups that you have created.
 - Tap the icon to the left of the group name to change or remove the group photo.
 - To add contacts to the group, tap **Add contact to group**, select the contacts you want to add, and then tap **Save**.
 - To remove a contact from the group, tap  at the right side of the contact name.
4. Tap **Save**.

Sending a message or email to a group

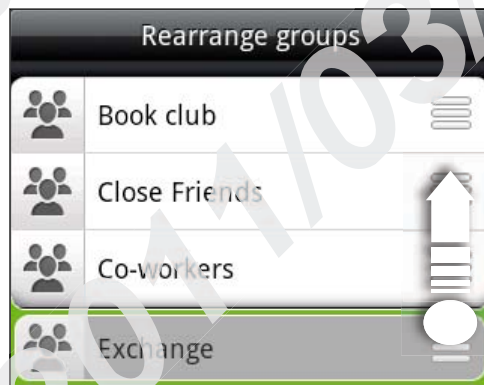

You will be charged by your mobile provider for each message sent. For example, if you send a message to a group of five people, you will be charged for five messages.

1. From the Home screen, tap  > **People**.
2. On the Group tab, tap the group you want to send a message or email to.
3. Go to the Group action tab, and then do one of the following:
 - Tap **Send group message** to send a message to the group.
 - Tap **Send group mail** to send an email to the group.

Rearranging your contact groups

1. From the Home screen, tap  > **People**.
2. On the Groups tab, press , and then tap **Rearrange**.
3. Press and hold  at the end of the group you want to move. When the row is highlighted, drag it to its new position.

4. Tap **Save**.

Rearranging the members of a contact group

1. From the Home screen, tap  > People.
2. On the Groups tab, tap the group to see its members.
3. Press , and then tap **Rearrange**.
4. Press and hold  at the end of the contact's name you want to move. When the row is highlighted, drag it to its new position.
5. Tap **Save**.

Deleting a group

You can only delete groups that you have created.

1. From the Home screen, tap  > People.
2. On the Groups tab, press and hold the group you want to delete, and then tap **Delete group**.

Adding People widgets

Stay in touch with different circles of friends or colleagues in your life. Using the People widget, you can instantly place a call, send a message, view details of a favorite contact, and even check Facebook and Twitter updates. You can add several People widgets on the Home screen, with a different group of contacts on each widget.

1. From the Home screen, tap  > Widget > People.
2. Choose the widget style, and then tap **Select**.
3. Select the group you want to add as a widget.

4. Drag the widget to a blank space on a Home screen. When the widget is where you want it, lift your finger.
5. Repeat the above steps to add another People widget.

Setting the default communication method

1. On the Home screen, go to the People widget.
2. Tap a contact on the widget.
3. On the Select default action screen, tap the communication method you want for the contact.

Changing the default communication method

1. On the Home screen, go to the People widget.
2. Tap the name of a contact on the widget to open the person's contact card.
3. Press , and then tap **More > Set default action**.
4. On the Select default action screen, tap the communication method you want for the contact.

Getting in touch with a contact

1. On the Home screen, go to the People widget.
2. Tap a contact (photo not the name) on the widget. The default communication method will be performed.

Tap the name of the contact to open the contact details screen for that contact.

Email

Gmail

Using Gmail

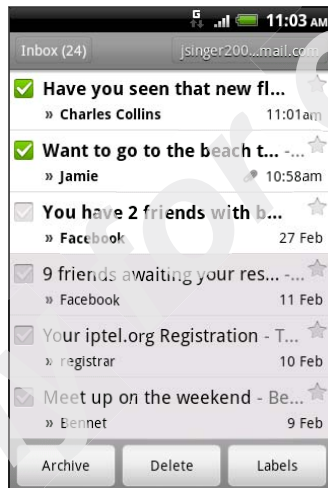

When you first set up HTC Wildfire S, make sure you sign into your Google Account to use Gmail. If you didn't do so, go to the **Accounts & sync** setting to sign in.

You can also set up more than one Google Account on HTC Wildfire S, and then switch between accounts in Gmail.

Viewing your Gmail Inbox

All your received emails are delivered to your Inbox.

From the Home screen, tap  > **Gmail**. Your Gmail inbox then opens.

Archive or delete multiple conversations

Tap before the email or conversation. Then tap the onscreen buttons at the bottom to choose what to do with the selected messages or conversations.

Display drafts, sent messages, and other labels

Tap **Inbox** at the top left of the screen, and then tap another label (such as **Sent**, **Drafts**, or your created label) to view its messages and conversations.

Switch to your other Gmail account

Tap the current account at the top right of the screen, and then tap another account you want to switch to.

Refresh the Inbox

Press , and then tap **Refresh**.

Sending a new message

1. In the Gmail inbox, press  and then tap **Compose**.
2. If you've set up multiple Google Accounts on your phone, choose which Gmail address you want to use for sending your email. Tap the box that shows your current Gmail address, and then tap another address that you want to use for sending.

3. Enter the message recipient's email address in the **To** field. If you are sending the email to several recipients, separate the email addresses with a comma.

If you want to send a carbon copy (Cc) or a blind carbon copy (Bcc) of the email to other recipients, press  and then tap **Add Cc/Bcc**.

4. Enter the email subject, and then compose your email.
5. If you want to attach a picture, press  and then tap **Attach**.
6. Locate and then tap the picture you want to attach.
7. After composing your message, tap .

While composing the message, tap  to save it as a draft. Or press  to discard the message.

Replying to or forwarding an email message

1. In the Gmail inbox, tap the email message or conversation.
2. To reply to the sender, tap . Or, tap  and choose whether to **Reply all** or **Forward**.
3. Do one of the following:
 - If you selected **Reply** or **Reply all**, enter your reply message.
 - If you selected **Forward**, specify the message recipients.

Tap **Respond inline** if you want to interleave your new message with the received email. But this removes any attachments or formatting in the original email.

4. Tap .

Getting help

To find out more about using Gmail, press , and then tap **More > Help**. The web browser will take you to the Google Mobile Help site.

Mail

About the Mail app

Use the Mail app to add your webmail and other POP3 or IMAP email accounts. You can also set up and use your Exchange ActiveSync email on your phone.

You can add the Mail widget to view your POP3/IMAP or Exchange ActiveSync emails on the Home screen.

Adding a POP3/IMAP email account

1. From the Home screen, tap  > Mail.
2. Do one of the following:
 - If this is your first time to add an email account in Mail, tap **Other (POP3/IMAP)** on the Choose a mail provider screen.
 - If you've already added an email account in Mail, press , and then tap **More > New account**. If the Choose a mail provider screen is displayed, tap **Other (POP3/IMAP)**.
3. Enter the email address and password for your email account and then tap **Next**.
4. If the account type you want to set up is not in the phone database, you'll be asked to enter more details.
5. Enter the account name and your name and then tap **Finish setup**.

Adding a Microsoft Exchange ActiveSync account

You can add one or more Microsoft Exchange ActiveSync accounts on your phone. You can sync with Microsoft Exchange Server 2003 Service Pack (SP2) or later.

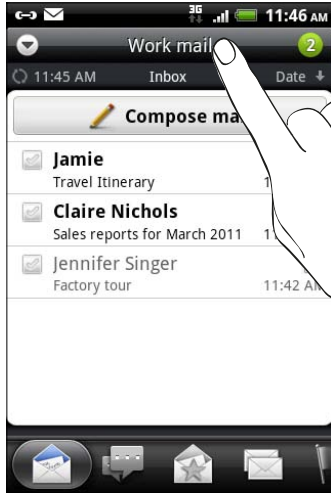

You can add up to 15 Exchange ActiveSync accounts on your phone.

1. From the Home screen, tap  > Mail.
2. Do one of the following:
 - If this is your first time to add an email account in Mail, tap **Microsoft Exchange ActiveSync** on the Choose a mail provider screen.
 - If you've already added an email account in Mail, press , and then tap **More > New account**. If the Choose a mail provider screen is displayed, tap **Microsoft Exchange ActiveSync**.
3. Enter the Exchange ActiveSync account details, and then tap **Next**. Your corporate Exchange Server must support auto-detect for the phone to automatically set up the Exchange ActiveSync account. If your corporate Exchange Server does not support auto-detect, you'll need to enter your Exchange Server settings after you tap **Next**. Ask your Exchange Server administrator for details.
4. Choose the types of information you want to sync. Also choose how often you want to update and sync email to your phone, then tap **Next**.
5. Enter the account name, then tap **Finish setup**.

Checking your Mail inbox

When you open the Mail app, it displays the inbox of one of your email accounts that you've set up on your phone.

To switch between email accounts, tap the bar that shows the current email account, and then tap another account.

Viewing the unified inbox of all your email accounts

You can view email messages from all your accounts just in one place without having to switch to different accounts.

Just tap the bar that shows the current email account, and then tap **All accounts**. Email messages are color coded so you can easily distinguish which email accounts they belong to.

Up to 15 email accounts can be shown in the unified inbox.

Switching between different views of your inbox

If you have lots of email messages, it may take you some time to browse through the long list and find a single email or related email messages. Use the tabs of the Mail app to sort your emails into different categories.

To skim through your email messages easier, tap one of the following tabs to change the view of your inbox:

Inbox

Displays email messages as individual items.

Conversations

Displays email messages as conversations, grouped according to the subject line. Tap a subject in the list to show the email conversation.

	Group Displays all email messages from a contact group. To choose which contact group to display, press  , tap View , and then select a group.
	Unread Displays unread messages.
	Marked (Exchange ActiveSync only) Displays all flagged messages.
	Invites (Exchange ActiveSync only) Displays meeting invitations which you have not yet accepted or declined.
	Attachments Displays all messages that have attachments.

Refreshing an email account

Whatever your automatic synchronization settings are, you can also synchronize your sent and received emails manually at any time.

- While in the account you want to synchronize, press , and then tap **Refresh**.
- If you have several email accounts, you can refresh them all at the same time. Go to the unified inbox first. Then press  and tap **Refresh**.

Sorting email messages

You can sort email messages by date received, priority, subject, sender, or size.

On the inbox, press , tap **Sort**, and select from the sorting options.

Quickly browsing your inbox

If you have a long list of email messages in your inbox, it may not be easy to browse the list and find an email that you want. You can quickly browse through your inbox by using finger gestures.

1. Choose a sorting order for displaying your email messages.
2. Press and hold two fingers on any email message, and then drag upward or downward without lifting your fingers. Your screen then jumps to the set of email messages based on your chosen sorting order.

Managing email messages

Deleting an email message

1. On the inbox, press and hold the message you want to delete.
2. On the options menu, tap **Delete**.

Selecting several email messages

1. Tap the check boxes of email messages to select them.
2. Choose what you want to do with the selected messages: **Mark read** (or mark **Mark unread**), **Delete**, or **Move to** another folder.

You cannot move email messages when you're in the unified (All accounts) inbox.

Moving several email messages to another folder

1. Switch to the email account you want to use.
2. Tap the check boxes of email messages you want to move.
3. Tap **Move to**, and then tap the folder where to move the email messages.

Moving an email message after reading

1. In the open message, press , and then tap **More > Move to**.
2. Tap the folder where you want to move the email message.

Deleting all messages

1. First tap the check box of any email message.
2. Press , and then tap **Select all**.
3. Tap **Delete**.

Switching to other mail folders

1. Press , and then tap **Folders**.
2. Tap the mail folder whose messages you want to view.

Sending an email message

1. From the Home screen, tap > **Mail**.
2. Switch to the email account that you want to use for sending email.
3. On the email account inbox, tap **Compose mail**.

4. Fill in one or more recipients. You can:
 - Enter email addresses directly in the **To** field, separating them with a comma. As you enter email addresses, any matching addresses from your contacts list are displayed. Tap a match to enter that address directly.
 - Tap the  icon, and then choose the contacts to whom you want to send the message. You can also select contact groups as recipients, or search and add contacts from the company directory if you have set up an Exchange ActiveSync account on your phone.

If you want to send a carbon copy (Cc) or a blind carbon copy (Bcc) of the email to other recipients, press , and then tap **Show Cc/Bcc**.

5. Enter the subject, and then compose your message.
6. To add an attachment, press , tap **Attach**, and choose from the following options:

Picture	Select Camera to take a photo and attach it, or Gallery to attach a photo from your storage card.
Video	Select Camcorder to capture a video and attach it, or Videos to attach a video from your storage card.
Audio	Select Voice Recorder to make a voice recording and attach it, or Files to attach a music file or voice recording from your storage card.
App recommendation	Choose an app you've installed from Android Market that you want to tell other people about. The URL from which the app can be downloaded will be inserted in your email.
Location	You can attach location information. Send your current location (requires GPS to be turned on) or a location you pick on a map.
Document	Attach a PDF file or an Office document such as a text file or a spreadsheet.
Contact (vCard)	Attach someone's contact information.
Appointment (vCalendar)	Attach a calendar event.
File	Attach any file from your storage card.

7. Tap **Send** to send the message immediately, or tap **Save as draft** to send it later.

If there's no Wi-Fi or data connection available or Airplane mode is on when you send your email, the email will be saved to the Outbox folder. Once there's Wi-Fi or data connection available, the saved email will be sent automatically next time your phone syncs.

Resuming a draft email message

1. In the email account inbox, press , and then tap **Folders > Drafts**.
2. Tap the message.
3. When you finish editing the message, tap **Send**.

Reading and replying to an email message

1. From the Home screen, tap  > **Mail**.
2. Switch to the email account you want to use.
3. On the email account inbox, tap the email you want to read.
4. Do any of the following:

Reply to the message	Tap Reply or Reply all .
Forward the message	Press  , and then tap More > Forward .
Delete the message	Press  , and then tap Delete .
Mark the message as unread	Press  , and then tap Mark unread .

Setting the priority for an email message

You can set the priority for an email message that you send.

1. While composing the message, press .
2. Tap **Set priority**.
3. Select the priority for the message.

If you selected **High** or **Low** priority, the priority appears below the subject line of the message.

Working with Exchange ActiveSync email

If you sync HTC Wildfire S with your work Exchange ActiveSync account, you can read, reply, send, and manage email in the same easy way as with a POP3/IMAP account. In addition, you can also use some powerful Exchange features.

Flagging an email

- While viewing the inbox, tap the white flag icon  that appears on the right of an email message. The icon turns red  after you flagged the email.
- While reading an email, you can also tap the flag icon in the email.

Setting your Out of the office status

You can set your Out of office status and auto-reply message right from HTC Wildfire S.

1. Switch to your Exchange ActiveSync account.
2. Press  and then tap **More > Out of the office**.
3. Tap the box, and then select **Out of the office**.
4. Set the dates and times for the period when you will be out of the office.
5. Enter the auto-reply message.
6. Tap **Save**.

Sending a meeting request

1. Switch to your Exchange ActiveSync account.
2. Go to the Invites tab, and then tap **New meeting invitation**.
3. Enter the meeting details.
4. Tap **Send**.

Changing email account settings

1. Switch to the email account whose settings you want to change.
2. Press , and then tap **More > Settings**.
3. Select from the following:

Account settings	Change the email account settings such as the name, email address, password, and description.
General settings	Set the font size when reading emails, enable, disable or set the signature, set the account as the default email account, and set where to save email attachments.
Send & Receive	Set the sync settings for incoming and outgoing emails such as maximum size limit, update schedule, and more.
Notification settings	Set email notification settings.
Delete account	Tap to delete the email account.

4. Press  to save your changes.

Deleting an email account

1. Switch to the email account you want to delete.
2. Press , and then tap **More > Settings > Delete account**.

Calendar

About Calendar

Never miss an important date again. Use the Calendar app to schedule your events, meetings, and appointments.

You can set up HTC Wildfire S to stay in sync with the following types of calendars:

- On HTC Wildfire S, sign in to your Google Account so you'll be able to sync the Calendar app with your Google Calendar online. You can add multiple Google Accounts.
- If you're using Microsoft Outlook® on your computer, you can set up HTC Sync on your computer to sync Outlook Calendar with the Calendar app.
- If you have a Microsoft Exchange ActiveSync account and you've added it on HTC Wildfire S, you can sync the Calendar app with your Exchange ActiveSync calendar events.

If you've signed in to your social network accounts such as Facebook, birthdays and events of friends will appear in Calendar.

Creating an event

You can create events that sync with your Google Calendar, your computer's Outlook Calendar, or Exchange ActiveSync calendar, as well as events that appear on HTC Wildfire S only.

1. From the Home screen, tap  > Calendar.
2. On any Calendar view, press , and then tap **New event**.

When you are in the month or agenda view, you can also tap  to create a new event.

3. If you have more than one calendar, select a calendar in which to add the event:
 - Select your Google Account to create a Google Calendar event. If you have several Google calendars on the Web, select one in which to add your event.
 - Select **PC Sync** to create calendar events on your phone. You can sync them with your computer's Outlook Calendar using HTC Sync.
 - Select your Exchange ActiveSync account to create an Exchange ActiveSync calendar event.
4. Enter a name for the event.

5. To specify the date and time of the event, do one of the following:
 - If there is a time frame for the event, tap the **From** and **To** date and time to set them.
 - If it is a whole-day event, such as a birthday, set the **From** and **To** date, then select the **All day** check box.
6. Enter the event location and description.
7. Set the reminder time.

You can add another reminder time in a Google Calendar event. Press  and then tap **Add reminder**.

8. If the event occurs on a regular basis, tap the **Repetition** box and then choose how often the event occurs.
9. Tap **Save**.

Inviting guests to your event (Google Calendar only)

After you invite guests to your event, an invitation email will be sent using your Google Account.

If you want to invite guests to your event, you need to create and add the event in your Google Calendar.

1. Open **Calendar** and create a new event. Tap the **Calendar** field and then select your Google Account (or one of your other Google Calendars).
2. Add details about the event, such as date and time, location, and more.
3. In the **Guests** field, enter the email addresses of everyone you want to invite to the event. Separate multiple addresses with commas (.). If the people to whom you send invitations use Google Calendar, they'll receive an invitation in Calendar and by email.
4. Tap **Save** to add the event to your Google Calendar.

Sending a meeting request using Calendar (Exchange ActiveSync only)

If you have an Exchange ActiveSync account set up on HTC Wildfire S, you can use Calendar to create a meeting appointment and send a meeting request email to the people you want to invite to your meeting.

1. Open **Calendar** and create a new event. Tap the **Calendar** field and then select your Exchange ActiveSync account.
2. Add details about the meeting, such as date and time, location, and more.
3. Press  and then tap **Meeting invitation**.
4. Tap  and choose attendees from your contacts or the company directory.
5. Enter your message and then tap **Send**.

Changing Calendar views

When you open Calendar, it displays the month view by default. You can also use agenda, day, or week view. To change between views, press , and then choose the type of view that you want.

Using month view

In month view, you will see markers on days that have events.

Do any of the following in month view:

- Tap a day to view the events for that day.
- Press and hold a day to open an options menu from which you can also choose to create an event or switch to either day or agenda view.
- Slide your finger up or down the screen to view earlier or later months.

Using day and agenda views

Day view displays a list of the events of one day and also shows weather information at the bottom of the screen when you're viewing events of the current day.

- In day view, the weather information appears only if the event is within the five-day forecast of the Weather app.
- Weather information does not appear in day view when you change day view to display as a time list.

Agenda view shows a list of all your events in chronological order.

- The colored bars on the left side of the events indicate the type of calendar the event is part of. To find out what each color represents, press  and then tap **More > Calendars**.
- When in day view, slide left or right across the screen to view earlier or later days.

Using week view

Week view displays a chart of the events of one week.

When in week view, you can:

- Press and hold on a time slot to create a new event at that time.
- Tap an event (shown as colored blocks) to view its details.
- Slide left or right across the screen to view earlier or later weeks.

Managing Calendar events

Viewing an event

You can view your own events as well as events that other people have shared with you.

1. In day view or agenda view, tap an event. The Event details screen then opens and shows the summary of the event.
2. Depending on the event information, do any of the following:
 - Find the event's location in Maps.
 - Call any phone number included in the event location or description.
 - Check the participants of the event.
 - If the event was sent as a meeting invitation, respond to the invitation.
 - If it's an Exchange ActiveSync calendar event, reply by email to the organizer or to all the guests. Press , and then either tap **Reply** or **Reply all**.
 - Select any text and look it up on the Web.
 - Tap the reminder time to change it. Press  to save changes.

Editing an event

You can edit events that you have created.

1. While viewing an event, press , and then tap **Edit event**.
2. Make your changes to the event.
3. When you're done editing, tap **Save**.

Deleting an event

Do any of the following:

- While viewing the summary of an event on the Event details screen, press  and then tap **Delete event**.
- In day, agenda or week view, press and hold an event and then tap **Delete event**.
- When editing an event, tap **Delete**.

If the event repeats, you'll be asked whether you want to delete just that occurrence, this and all future occurrences, or all past and future occurrences in your Calendar.

Sharing an event (vCalendar)

You can share a calendar event as a vCalendar using Bluetooth or by sending it as a file attachment with your email or message.

1. While viewing an event, press , and then tap **Share vCalendar**.
2. Do one of the following:
 - Tap **Bluetooth**. You'll be asked to turn on Bluetooth on HTC Wildfire S and connect to the receiving Bluetooth device.
 - Tap **Mail**. A new message window opens and automatically includes the vCalendar as an attachment. Your default email account will be used to send the message.
 - Tap **Message**. A new message window opens and automatically includes the vCalendar as a multimedia attachment.

Dismissing or snoozing event reminders

If you have set at least one reminder for an event, the upcoming event icon  will appear in the notifications area of the status bar to remind you of the upcoming event.

1. Tap the status bar, then slide your finger down the screen to open the Notifications panel.
2. Do one of the following:
 - Tap **Clear** to dismiss event reminders and all other notifications. Other types of notifications such as new messages and missed calls will also be deleted.
 - After sliding open the Notifications panel, tap the calendar event reminder. You'll then see a list of all pending event reminders. Tap **Snooze all** to snooze all event reminders for five minutes, or tap **Dismiss all** to dismiss all event reminders.
 - Press  to keep the reminders pending in the notifications area of the status bar.

Displaying and synchronizing reminders

You can select which calendars to show or hide, and which ones to keep synchronized.

Showing or hiding calendars

In any Calendar view, press , tap **More > Calendars**, and then select or clear a calendar to show or hide it.

- Calendars are kept synchronized on your phone, whether or not you hide them.
- Tap **All calendars** to display all calendars.

Adding a Google calendar to sync with

You can choose which Google calendars to keep synchronized on HTC Wildfire S.

You can't create a new Google calendar on HTC Wildfire S. You can only sync with Google calendars that you created or subscribed to on the Web.

1. In any Calendar view, press  and then tap **More > Calendars**.
2. Press  again and then tap **Add calendars**.
3. Select a Google calendar to add to your calendars list, and then tap **OK**.
4. Press  to update Calendar.

Stop synchronizing a Google calendar

You can choose which Google calendars to stop synchronizing.

1. In any Calendar view, press  and then tap **More > Calendars**.
2. Press  again and then tap **Remove calendars**.
3. Select a Google calendar to remove from your calendars list, and then tap **OK**.
4. Press  to update Calendar.

The calendars that you remove from your calendars list will no longer be synchronized on HTC Wildfire S, but you remain subscribed to them and can work with them in Google Calendar on the Web.

Changing Calendar settings

You can change Calendar settings to specify how it displays events and how it notifies you of upcoming events.

In any Calendar view, press  and then tap **More > Settings**.

Reminder settings

All calendars	Select this check box to use the same event reminder settings for all types of calendars. If you clear this check box, you can set different reminder settings for each calendar.
Set alerts & notifications	Configure event reminders to open an alert, send you a notification, or turn off event notifications on HTC Wildfire S.

Default reminder time	Choose how soon before an event you want to be notified.
Select ringtone	Choose a ringtone to sound when you receive an event reminder.
Vibrate	Choose whether you want HTC Wildfire S to vibrate when you receive an event notification.
Hide declined events	Choose whether to show or hide events for which you've declined invitations.

Calendar view settings

Start in	Choose the default view to display when you open Calendar.
Day views	Choose whether to display day view in the form of an event list or time list.
First day of week	Set the month and week views to start on a Sunday or Monday.
Include weather	Select this check box to show weather information in the day view events list.
City	If weather is included, by default, day view displays your current location's weather. You can change it to display the weather of another city.

About the Calendar widget

You can add a Calendar widget to your Home screen. The widgets offer different calendar views.

Tapping a day or event on the widget brings you to the Calendar app.

Search and Web browser

Searching HTC Wildfire S and the web

You can search for information on HTC Wildfire S and on the web by using Google Search. Some applications, such as People or Mail, have their own search box, which you can use to search within those applications (the application's icon is at the left of the search box.)

Setting search options

1. From the Home screen, press , and then tap **Settings**.
2. Scroll down the screen, and then tap **Search**.
3. Tap **Google search**, and then do the following:
 - Select **Show web suggestions** if you want to include suggestions from Google when doing a search.
 - Select **Search history** to enable personalized search history. You need to sign in to your Google Account to use this feature. The **Show web suggestions** check box needs to be selected for this option to be enabled.
4. Press .
5. Tap **Searchable items**, and then select the items you want included when doing a search.

Performing searches on the web and your phone

1. From the Home screen, press .
2. Enter the search item in the search box. As you type, matching items on your phone and suggestions from Google web search are shown as a list.
3. Do one of the following
 - To narrow your search, tap , select another search location (for example, **Apps**), and then tap .
 - If what you're searching for is in the list of suggestions, tap it in the list. The item opens in the appropriate application.
 - To edit an item in the list, tap . The item will appear in the search box, where you can edit it.
 - If what you're searching for is not in the list, tap  to search the web. The web browser opens, displaying the results of a Google search.

Quickly looking up information on the Web

Quick Lookup helps you learn about something right on the spot. When you enter a new word or phrase, you can easily look it up in popular websites or search services such as Google Search, Wikipedia, YouTube, Google Translate, and Google Dictionary.

1. From the Home screen, tap  > Quick Lookup.
2. If the onscreen keyboard is open, press  to close it first so you'll see the bottom tabs.
3. Slide across the tabs to pick where you want to look up information. Then in the search box, enter what you want to search for.
4. Tap .

After looking up the item on one tab, you can slide to other tabs to automatically look up the same term there.

Translating words to other languages

1. From the Home screen, tap  > Quick Lookup.
2. If the onscreen keyboard is open, press  to close it first so you'll see the bottom tabs.
3. Slide to the Google Translate tab.
4. Under From language, choose the original language, then enter the word or phrase you want to translate.
5. Under To language, choose from the languages available for translation.
6. Tap **Translate**.

Using the web browser

You must have an active data connection or Wi-Fi connection to access the Internet.

Do one of the following to open the web browser and start surfing the Web:

- On the Home screen, tap **Internet**.
- From the Home screen, tap  > **Internet**.

Going to a webpage

1. From the browser screen, press  and then tap the URL field on top of the screen.
2. Enter the webpage address using the keyboard. As you enter the address, matching webpage addresses will appear on the screen.
3. Do one of the following:
 - Tap an address to go directly to that webpage.
 - Continue typing in the webpage address, then tap .

Changing the screen orientation

The screen orientation automatically changes depending on how you're holding HTC Wildfire S.

Turn HTC Wildfire S sideways to display the web browser in landscape orientation.

If the screen orientation doesn't change automatically, turn on automatic screen orientation. From the Home screen, press , tap **Settings > Display**, and then select the **Auto-rotate** screen check box.

Navigating and zooming on a webpage

- You can swipe your finger on the screen to navigate and view other areas of the webpage.
- Tap the screen twice quickly to zoom in, then tap the screen twice quickly again to zoom out. You can also use your fingers to spread or pinch the screen to zoom in and out.

Selecting a link on a webpage

You can tap a link to open it, or press and hold a link for more options.

Link	What to do
Webpage address (URLs)	<ul style="list-style-type: none"> ▪ Tap the link to open the webpage. ▪ Press and hold the link to open a menu that allows you to open, bookmark, copy to the clipboard, or share the link.
Email address	<ul style="list-style-type: none"> ▪ Tap to send an email message to the email address. ▪ Press and hold, then tap Copy on the menu to copy the email address to the clipboard. You can paste the email address later when creating a new contact or sending a new email message.

Selecting an address or phone number on a webpage

You can map an address or call a phone number on a webpage.

Link	What to do
Location address	Tap the address to copy it or map it using Google Maps.
Phone number	Tap the phone number to copy, call, send a text message to that number, or save the number to a contact in People.

Opening a new browser window

Open multiple browser windows to make it easier for you to switch from one website to another.

1. While viewing a webpage, press  and then tap **Windows**.
2. Tap .

A new browser window opens.

Switching between browser windows

1. While viewing a webpage, do one of the following:
 - Press  and then tap **Windows**.
 - Pinch the screen (zoom out) until you see the other browser windows.
2. Select the browser window you want to view by sliding your finger on the screen from right to left.

3. Tap a webpage to display it in full screen.

Tap  to close a webpage.

Downloading from the Web

Do more than just browsing the Web. You can download web files such as photos and apps then save them on your storage card.

Downloading apps from the Web

You can download apps directly from your favorite websites. Apps downloaded from the Web can be from unknown sources. To protect your phone and personal data, we strongly recommend that you download and install only apps you trust.

All downloaded files will be saved to your storage card. Before downloading apps from the Web, be sure that you have your storage card on your phone. The app you want to download should also be compatible with your phone.

1. Open your web browser, then go to the website where you can download the app you want.
2. Follow the website's instructions for downloading the app.

Before you can install the downloaded app, you need to set your phone to allow installation of third-party apps. From the Home screen, press , then tap **Settings** > **Applications** > **Unknown sources**.

Viewing your downloads

While viewing a webpage, press  and then tap **More** > **Downloads**.

Viewing bookmarks and previously visited pages

You can store as many bookmarks as you want on your phone. You can also access a convenient list of the sites you have visited, or quickly view the pages that you access most often.

Bookmarking a webpage

1. While viewing a webpage, press , and then tap **Add bookmark**.
2. Edit the bookmark name if needed, and then tap **Add**.

Opening a bookmark

1. While viewing a webpage, press , and then tap **Bookmarks**.
2. On the Bookmarks tab , navigate to the bookmark you want to open, and then tap it.

Editing a bookmark

1. While viewing a webpage, press , and then tap **Bookmarks**.
2. On the Bookmarks tab , press  and then tap **Edit**.
3. Tap the bookmark you want to edit.
4. Enter your changes, and then tap **Edit**.

Viewing a previously visited page

1. While viewing a webpage, press , and then tap **Bookmarks**.
2. On the History tab , navigate to the page you want to view and then tap the page.

Clearing the list of previously visited pages

1. While viewing a webpage, press , and then tap **Bookmarks**.
2. On the History tab , press , and then tap **Clear history**.

Viewing a page that you often visit

1. While viewing a webpage, press , and then tap **Bookmarks**.
2. On the Most visited tab , navigate to the page you want to view, and then tap the page.

Clearing the list of most visited pages

1. While viewing a webpage, press , and then tap **Bookmarks**.
2. On the Most visited tab , press , and then tap **Clear all**.

Changing the view of bookmarks or most visited pages

1. While viewing a webpage, press , and then tap **Bookmarks**.
2. On the Bookmarks tab  or the Most visited tab , press , and then tap **Thumbnails**, **List**, or **Grid** to change the view.

For example, if you are in Thumbnails view and you want to view bookmarks in a grid, press  and tap **List**, then press  and tap **Grid**.

Setting browser options

Customize the web browser to suit your browsing lifestyle. Set display, privacy, and security options when using the web browser.

From the browser screen, press , and then tap **More > Settings**.

Setting your home page

1. From the browser screen, press , and then tap **More > Settings > Set home page**.
2. Select the home page you want to use.

Browsing full versions of all websites

Some websites display a mobile version of their pages on phone web browsers. You can choose to view the full version of all pages, even for these sites.

From the browser screen, press , tap **More > Settings**, and then clear the **Mobile view** check box.

Choosing when to show Flash content

Choose which Flash* content you want to see on a webpage, and when you want to view it.

1. From the browser screen, press , and then tap **More > Settings > Enable plugins**.
2. Tap **On demand**.

After selecting **On demand**, you can show the Flash content by tapping  on the webpage.

Camera

Camera basics

Whether traveling for business or fun, enjoy taking photos and videos of your trip and encounters with HTC Wildfire S.

P Be sure to plug in your storage card before you start. Photos and videos captured with the camera will be stored onto your storage card.

- To open the camera in photo mode and take photos, tap  from the Home screen, and then tap **Camera**.
- To open the camera directly in video mode so you can immediately start capturing videos, tap  from the Home screen, and then tap **Camcorder**.

Viewfinder screen

You'll find the following onscreen controls on the Viewfinder screen:

	Zoom bar
	Auto focus indicator
	Photo/Video mode switch
	Flash button
	Shutter release/Record button
	Effects button
	Gallery button

Zooming

Before taking a photo or video, you can first use the onscreen zoom bar to zoom in or out of your subject.

Simply slide your finger up or down the zoom bar to zoom in or out.

When you're recording video, the zoom bar is always shown onscreen. You can freely zoom in or out while recording.

Auto focusing

Whenever you point the camera at a different subject or location, it shows the auto focus indicator at the center of the Viewfinder screen.

Let the camera auto focus on the center of the screen. Or you can tap another area on the screen that you want to focus on.

Taking your closeup shot

Having a hard time taking your own closeup shot? With your phone's camera, it's easy. Just set it to automatically take your self portrait. You won't even need to tap the shutter release button.

1. Press  to open the settings menu panel.
2. Tap **Self-portrait**. Then choose whether you want the camera to identify 1 or 2 faces in the shot.
3. To set a time delay before the camera takes the shot, tap **Self-timer**. Then set the timer to 2 or 10 seconds.
4. Press  to close the settings menu panel.
5. Turn the camera to face you.

Once the camera detects your face, it automatically focuses and takes your photo.

Taking a photo

1. From the Home screen, tap  > **Camera**.
2. Before taking the photo, you can zoom in or out first on your subject.
