SUBJECT: FCC Application for FCC ID: NM8PH39150

To Whom It May Concern:

We, HTC Corporation, hereby declare to the LTE device that VOIP in LTE is not inherent function of the device. The default software provided and installed in the handset does not support VOIP in LTE.

However, by design, device readily supports users to install and use of third-party applications for VOIP in LTE. Therefore, LTE SAR evaluation at head positions was performed for the conservative RF exposure consideration.

Sincerely yours,
