Status and notifications

Status icons

Here's what each icon means:

 Signal strength	 Battery is full
 GPRS connected	 Battery is charging
 GPRS in use	 Battery is low (20% remaining)
 EDGE connected	 Battery is very low (10% remaining)
 EDGE in use	 Silent mode
 3G connected	 Vibrate mode

 3G in use	 Microphone is mute
 HSDPA connected	 Speakerphone is on
 HSDPA in use	 Wired microphone headset connected
 Roaming	 Wired headset connected
 No signal	 Bluetooth is on
 No SIM card installed	 Connected to a Bluetooth device
 Connected to a Wi-Fi network	 Airplane mode
 Data synchronizing	 GPS is on
 Network sharing is on	 Alarm is set

Notification icons

Notification icons on the status bar make it easy for you to keep on top of your messages, calendar events, and alarms.

Here's what each one means:

 New Gmail message	 Call in progress
 New Microsoft Exchange ActiveSync or POP3/IMAP email	 Missed call
 Problem with email delivery	 Call on hold
 New SMS/MMS	 Call forwarding on
 Problem with SMS/MMS delivery	 Message forwarding on
 New Google Talk instant message	 Your phone is connected to a computer via USB cable
 New voicemail	 Wi-Fi is on and wireless networks are available
 Upcoming event	 Portable Wi-Fi Hotspot is on

 New updates from your social networks	 Uploading data (animated)
 Matched contacts suggestion	 Downloading data (animated)
 Bluetooth pairing request	 Waiting to upload
 Software update available	 Downloaded Android Market app installed successfully
 Song is playing	 Update available for an app downloaded from Android Market
 FM Radio app in use	 Storage card is safe to remove or storage card is being prepared
 Voice recording is on	 No storage card installed
 More (not displayed) notifications	 Storage card is low on free space
 General notification	

Notification LED

The notification LED shows a:

- Solid green light when you phone is connected to the power adapter or a computer and the battery is fully charged.
- Flashing green light when you have a pending notification.
- Solid orange light when the battery is being charged.
- Flashing red light when the battery level reaches very low.

Notifications panel

When you get a new notification, you can open the Notifications panel to see the message, reminder or event notification. The Notifications panel lets you quickly switch between recently-opened apps, and also lets you easily turn on settings such as Wi-Fi and Bluetooth.

To open the Notifications panel, press and hold the status bar, then slide your finger downward.

If you have several notifications, you can scroll down the screen to see them all.

Basics

Adjusting the volume

1. Press the VOLUME UP or VOLUME DOWN button to make the volume bar appear.
2. Keep pressing until you get the volume level that you want.

Silencing your ringer

1. Press the VOLUME UP or VOLUME DOWN button to make the volume bar appear.
2. Tap .

If the **Vibrate** option is on in the settings, your phone will change to vibrate mode. If it's not, your phone will change to silent mode.

Sleep mode

Sleep mode saves battery power by putting your phone into a low power state while the display is off. It also stops accidental button presses when your phone is in your bag or pocket. You'll still receive messages and calls though.

Switching to Sleep mode

Briefly press the POWER button to turn off the display and switch to Sleep mode. Your phone also automatically goes into Sleep mode when it's idle for a while.

Waking up from Sleep mode

To wake your phone up manually, press the POWER button. You'll need to unlock the screen.

Your phone automatically wakes up when you have an incoming call.

Lock screen

Unlocking the screen

Swipe your finger up to unlock the screen or answer an incoming call.

If you've set up a password in the settings, you'll need to enter it to unlock the screen.

Changing your lock screen wallpaper

Browse the collection of preset wallpapers or choose from photos that you've taken with the camera.

1. On the Start screen, tap .
2. Tap **Settings** > **lock + wallpaper**.
3. Tap **change wallpaper** and then choose a preset wallpaper or a camera photo.
4. If the photo you selected is bigger than the allowable wallpaper size, crop the photo.

To crop, drag the photo and position the part that you want to be your wallpaper inside the crop box, and then tap .

Changing the ringtone

Choose from the preset ringtones.

1. On the Start screen, tap .
2. Tap **Settings** > **ringtones + sounds**.
3. Tap the **Ringtone** box.

4. Listen to a ringtone by tapping the play icon beside its name.
5. Tap the ringtone you want to use.

Changing the theme

Feeling a little blue? You can change the screen's background and accent colors to match your mood. The accent color you choose will appear in various places, like the tiles on the Start screen, app icons, on web links, in messages, and more.

1. On the Start screen, tap .
2. Tap **Settings** > **theme**.
3. Choose the background and accent colors that you like by tapping their respective boxes.

Account setup

Set up your online accounts such as your Windows Live, Outlook® (Exchange ActiveSync®), and Google® accounts so you can send and receive email.

Depending on the type of email account that you set up, other items such as contacts, calendar, or other information can appear on your phone as well. And when you sign in to your social networking accounts such as Facebook®, you'll also get your friends' status updates and see the pictures they've posted.

Setting up an account

1. On the Start screen, tap .
2. Tap **Settings** > **email + accounts**.
3. Tap **add an account**, and then tap the type of account you want to set up.
4. Enter your email address and password, and then tap **sign in**.

Syncing an account

If you're not seeing your most recent email messages or status updates in an account, you can manually sync the account to download them.

1. On the Start screen, tap .
2. Tap **Settings** > **email + accounts**.
3. Press and hold the account whose information you want to download, and then tap **sync**.

Deleting an account

1. On the Start screen, tap .
2. Tap **Settings** > **email + accounts**.
3. Press and hold the account you want to delete, and then tap **delete**.

Switching between apps

Many apps can run at the same time, and there's an easy way to switch between them all.

1. Press and hold  to see what apps are currently running.
2. Slide left or right across the screen to see all of the open apps, and then tap the one you want to use.

Windows Marketplace

In Windows Marketplace, it's easy to download and purchase apps that fit your needs. A wide collection of free and paid apps is available, from everyday apps, powerful business apps, to fun games. You can also purchase songs.

From the Start screen, tap  > Marketplace and start shopping.

Phone calls

Making a call

Most SIM cards come with a PIN (personal identification number) set by your mobile operator. If you're asked for a PIN, enter it and then tap **OK**. If you enter the wrong PIN three times, your SIM card is blocked. Don't worry. Just contact your mobile operator and ask for the PUK (PIN Unblocking Key).

1. On the Start screen, tap .
2. Tap  to open the keypad.
3. Enter the number you want to call and then tap call.

To hang up, tap **end call**.

If you're ready to hang up but the Phone dialer screen isn't displayed anymore, tap the notification at the top of the screen, and then tap **end call**.

Making an emergency call

In some regions, you can make emergency calls even if you don't have a SIM card installed or your SIM card has been blocked.

1. On the Start screen, tap .
2. Tap  to open the keypad.
3. Dial the emergency number for your locale and then tap **call**.

If you enabled your password but forgot it, you can still make an emergency call without entering the password by tapping **emergency call** on the lock screen and then dialing the local emergency number.

Making an international call

1. On the Start screen, tap .
2. Tap  to open the keypad.
3. Press and hold the 0 key until the + sign appears.

The plus sign (+) shows that you're making an international call (instead of entering the international access number for the country you're in).

4. Enter the following on the keypad:
 - Country or region code
 - Area code (without the 0 at the beginning)
 - Phone number
5. Tap **call**.

Receiving calls

When you receive a phone call, the **Incoming call** screen appears.

Answering a call

- Tap **answer**.
- Or if the display is off and wakes up when you get a call, slide up from the bottom to unlock the screen first and then tap **answer**.

Rejecting a call

- Tap **ignore**.
- Or if the display is off and wakes up when you get a call, slide up from the bottom to unlock the screen first and then tap **ignore**.

Muting the ringing sound without rejecting the call

Do one of the following:

- Place your phone face down on a level surface.

If your phone is already facing down, it will still ring when there are subsequent incoming calls.

- Press the VOLUME UP or VOLUME DOWN button.
- Press the POWER button to silence the ringer and turn the display off.

What can I do during a call?

When a call is in progress, use the onscreen buttons to turn the speaker on, put the call on hold, and more.

Turning the speaker on during a call

To decrease potential damage to your hearing, do not hold your phone against your ear when the speaker is on.

On the call screen, tap **speaker**.

To turn the speaker off, just tap **speaker** again.

Putting a call on hold

On the call screen, tap **hold**.

To resume the call, tap **hold** again.

Switching between calls

If you're already on a call and accept another call, you can choose to switch between the two calls.

1. When you receive another call, tap **answer** to accept the second call and put the first call on hold.
2. To switch between the calls, tap the bar at the top of the screen.

3. To end the current call and return to the other call, tap **end call**.

Muting the microphone during a call

On the call screen, tap **mute**.

To turn the microphone back on, tap **mute** again.

Starting a conference call

Conference calling with your friends, family, or co-workers is easy. Make the first call (or accept a call), and then simply dial each subsequent call to add it to the conference.

P

- Make sure your SIM card is enabled with conference calling service. Contact your mobile operator for details.
- The maximum number of people you can have on a conference call varies by mobile operator.

1. Make a call to the first conference call participant.
2. When connected, tap **add call**, and then call the second participant.
The first participant is then put on hold.
3. When connected to the second participant, tap **merge calls**.
4. To add another participant, tap **add call**, and then call the person you want to invite.

5. When connected, tap **merge calls**.
6. To have a private conversation with someone in the call, tap **private**, and then tap the person's name or number.
 - Tap **merge calls** to merge the other people back and continue the conference call.
 - Or to end the private conversation, tap **end call**.

To end the conference call, tap **end call**.

Call history

Access the call history to check missed calls, your dialed numbers, and received calls.

Checking calls in the call history

1. On the Start screen, tap .
2. In the **history** list, you can:
 - Press and hold a number or contact name and delete it.
 - Tap a number or contact name to go to the **profile** list where you can choose to return the call, send a text message, save the number (if it's not yet stored in your contacts), and more.

Adding a new phone number from the call history to your contacts

1. On the Start screen, tap .
2. Tap the phone number that you want to save and then tap .
3. Tap  to create a new contact.
4. Edit the number if you need to, select the phone number type, and then tap .
5. Add the contact name and other information and then tap .

You can also save a phone number from the call history to an existing contact.

Clearing the call history

In the **history** list, you can:

Remove a number or name	Press and hold the number or name, and then tap delete item .
Clear the entire history	Tap  > delete all .

Turning airplane mode on or off

In many countries, you are required by law to turn off wireless devices while on board an aircraft. A quick way to turn off wireless functions is to switch your phone to airplane mode.

When you enable airplane mode, all wireless radios are turned off, including the call function, data services, Bluetooth, and Wi-Fi®. When you disable airplane mode, the call function is turned back on and the previous states of Bluetooth and Wi-Fi are restored.

1. On the Start screen, tap .
2. Tap **Settings** > **flight mode**.
3. Tap the **Status** switch to turn it on or off.

When airplane mode is on, you'll see the  icon in the status bar.

People

Keeping in touch

The People hub is more than just your address book. It's also where you can keep up with your social networks and stay in touch with the people you care about most.

1. On the Start screen, tap **People**.
2. Slide left and right across the screen to access your contacts list and see what's happening with your contacts.

all	Your contacts list. Just tap a contact to call, text, chat, write on a wall, or see that person's updates and pictures. Tap a group to send a group message and see updates and pictures from the group members
what's new	Here's where you can check out your contacts' latest updates, all handily rolled together from your various social network accounts.
recent	Here you'll see and get quick access to the contacts you've viewed or communicated with most recently.

Importing contacts from your SIM card

When you import contacts from your SIM card, they're automatically synced to your Windows Live account. They won't be deleted from the SIM card. If you haven't set up a Windows Live account, your contacts are saved to the memory.

1. On the Start screen, tap **People**.
2. Tap  > settings > import SIM contacts.

Adding a new contact

1. On the Start screen, tap **People**.
2. In the **all** contacts list, tap .
3. Tap **new contact**.
4. Tap the account you want to create the contact in.
5. Tap each item (such as **name**, **phone**, **email**) and then enter the information. After entering information for each item, make sure to tap  to save it.

6. Tap **add photo** to assign a picture or use the camera to take a picture of your contact.
7. When you're done, tap  to save the new contact.

Filtering your contacts list

You can filter the list to show contacts only from the accounts you choose.

1. In People, tap  > **settings**.
2. Tap **filter my contact list**.
3. Select the accounts from which you want to show contacts, and then tap .

Merging contact profiles

In People, you might have two or more versions of the same contact. This is usually because you have the contact's profile on different social network or email accounts. In most cases, your phone will combine contact profiles automatically. For those that are not combined, you can link them manually.

1. Tap a contact that has one or more duplicate entries in the **all** contacts list.
2. Tap .
3. You can:
 - Under **suggested links** (if available), tap the one that you want to link to the contact.
 - Tap **choose a contact** and then tap one that's a duplicate entry.

Unlinking contact profiles

1. In the **all** contacts list, tap the contact that has linked profiles.
2. Tap the link icon that shows the number of links .
3. Under **linked profiles**, tap the one that you want to unlink.
4. Tap **unlink**.

Searching, editing or deleting

Searching for a contact

If your contacts list is especially long, search is probably the quickest way to find a contact.

1. In the all contacts list, tap .
2. In the search bar, enter the first few letters of the first or last name of the contact you're looking for.

Matching contacts are then displayed.

3. Tap the contact to view the person's contact information.

Editing a contact's information

Contacts from Facebook, Twitter™, or LinkedIn® cannot be edited. But you can add information, and then save it to a different account (such as Windows Live).

1. In the **all** contacts list, tap the contact whose information you want to change.
2. Tap .
3. If this is a linked contact (someone with multiple accounts that show up as one entry in your contacts list), tap the account you want to edit (for example, tap **edit Windows Live**).

4. Edit or add new information for the contact.

After entering new information for an item, remember to tap  to apply the changes.

5. When you're done, tap  to save the changes.

Deleting a contact

While you can't delete a Facebook, Twitter, or LinkedIn contact on your phone, you can delete contacts from other services. When you do this, the contact will be deleted both from your phone and from the online service where it's stored.

1. In the **all** contacts list, tap the contact you want to delete.
2. Tap  > **delete**.
3. If the contact is a linked contact (someone with multiple accounts), choose which account to remove the contact from.

You can also press and hold a contact and then tap **delete**.

Contact groups

Groups help you cut through social networking clutter to stay in touch with the people who matter most — family, friends, your bowling league. When you create a group, it shows up at the top of your contact list.

Tap it, and you'll see the group members and their social networking updates, along with options for group email, texting, and chat.

Creating a new group

1. On the Start screen, tap **People**.
2. In the all contacts list, tap .
3. Tap **new group**.
4. Enter a group name.
5. Tap **add contact** and then choose a contact to add to the group.
Repeat this to add more contacts to the group.
6. When you're done, tap .

Press and hold a group to pin it to the Start screen.

Editing a group

1. Tap the group you want to edit and then tap .
2. You can:
 - Change the group name.
 - Add more contacts to the group.
 - Remove someone from the group. Tap the member, and then tap **remove from group**.
 - Change the preferred contact number or email address for a member. Tap the member, tap the information you want to change, and then tap .

Deleting a group

Press and hold a group, and then tap **delete**.

What is the Me card?

The Me card is your profile. It's also your one-stop shop for social networking. You can access the Me card either from the Start screen or the People hub.

- On the Start screen, tap **Me**.
- On the Start screen, tap **People**. Tap your profile picture.

Here are some things you can do:

- Post a new message on your social networks.
- See, comment on, and like social network posts.
- Reply to or retweet updates on Twitter.
- Update your profile picture on Facebook and Windows Live.
- Set your chat status. Let other people see when you're available on instant messaging.

Posting to social networks

You can post messages to your social networks and comment or like other people's posts. You can also check in to share your location with friends.

Go to **Settings** > **email + accounts** to check what types of social network accounts can be set up on your phone.

Posting a message

1. On the Start screen, tap **Me**.
2. Tap **post a message** and then type your message.
3. If you have more than one social network account, tap the **Post to** text box, choose which accounts to post to, and then tap .
4. Tap .

Commenting or liking someone's post

1. On the Start screen, tap **People**.
2. Slide left or right to go to **what's new** so you can see recent posts from your contacts.
3. When you see a post you want to comment on or like, tap .
4. You can:
 - Tap the box that says add a comment, type your comment, and then tap .
 - Tap  to like (or tap  to unlike).

Checking in on Facebook or Windows Live

When you check in to a place, you share your location with your contacts by posting it on one or more of your social networks. You can find nearby locations, or you can add one yourself.

1. On the Start screen, tap **Me**.
2. Tap **check in**.

3. Do one of the following:
 - Tap a place in the list to check in from there.
 - If you don't see your location listed, tap  to make the app find your location. Type the name of the place where you're at, and then tap .
 - To search for a nearby place, tap , type the name of the place, and then tap .
4. Once you've found the place you want to check in from, choose each account you want to check in on.
5. Tap  to check in.

Filtering social updates

Flooded with updates? Try viewing posts from one social network at a time. Or you can hide the updates from one or more of your social networks.

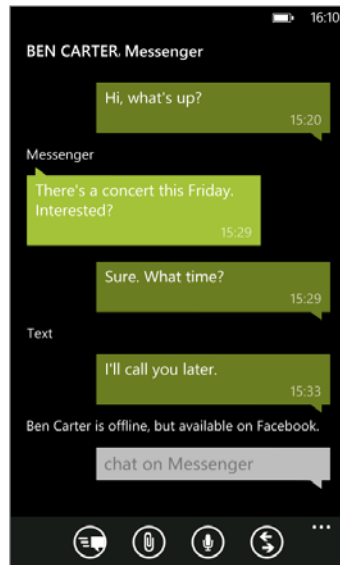

- In People, slide left or right to go to **what's new**. Tap **all accounts**, and then tap the account you want to view posts from.
- Or tap  > **settings**, and then select **Only show posts from people visible in my contact list**.

Posts from the social networks you've filtered out of your contacts list will no longer be visible.

Messaging

Texting and chatting in one place

With the Messaging app, you can both text and chat in one place. Whether your friends and family are on their mobile phone or at their computer, you can send them text messages, Windows Live instant messages, or start a Facebook chat.

- To chat on Messenger, you need to set up your Windows Live account first.
- To chat over Facebook, you need to set up your Facebook account. Also, make sure to turn on Facebook chat in the Messaging app's settings.

1. On the Start screen, tap **Messaging**.
2. If you want to send an instant message over Windows Live Messenger, set your chat status first, if you haven't done so.
3. Tap .
4. Tap , choose a contact, and then tap the contact's phone number, Messenger, or Facebook to determine how you want to send the message.
Repeat to add more recipients, and their names will be added automatically in the To box.
5. Tap the box that says type a message, and then enter your text.
6. Tap  to send it.

When adding recipients, you can also:

- Tap , and then select a contact group. The **Group text** option in the app's settings is turned on by default and can help keep replies in one thread when you're texting with a group of people. When it's turned on, replies are sent as multimedia messages instead of text messages.
- Begin typing a person's name in the **To** box, and then tap a matching contact name. The contact info you choose or enter determines if the message is sent as a text message or instant message over Messenger or Facebook. Repeat to add more recipients.
- Enter a mobile phone number or email address in the **To** box. To enter additional recipients, tap Enter after each one.

Setting your chat status

1. On the Start screen, tap **Messaging**.
2. Tap , and then tap a status.

For example, tap **available** to sign in so that your family and friends will see you online in their Windows Live Messenger.

You can also set your chat status from the Me card.

After you set your chat status and sign in, you'll see who's online in the Messaging app. Tap a contact to send the person an instant message.

Sharing a picture in a message

You can send a multimedia message by attaching a picture to a text message. You can also send a picture in an instant message on Windows Live Messenger or Facebook.

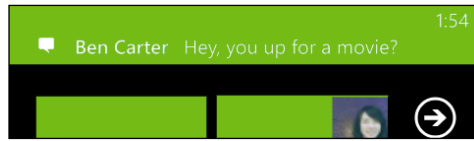

Your mobile operator might charge you extra to send multimedia messages, and this service must be available with your current data plan.

1. On the Start screen, tap **Messaging**.
2. Tap  to create a new message.
3. In the **To** box, fill in the recipient's name, mobile phone number, or email address.
4. Tap . You can:
 - Select an existing photo to attach to your message.
 - Or tap  to take a photo and attach it.
5. Enter your message.
6. Tap  to send.

Viewing and replying to a message

When you receive a new message, you'll hear a notification sound (if set) and see the message briefly display at the top of the screen.

- To open and read the message, you can:
 - Tap the message bar at the top of the screen.
 - Or open the Messaging app to access and read the message.
- Tap , and then choose whether to reply with a text, Messenger, or Facebook message.
- Enter your reply, and then tap .

Why can't I reply to my friend using Facebook or Messenger on the same thread?

If you're friends with someone on Facebook or Messenger, you may have several different contact profiles for the same person. Their phone number, Facebook, and Messenger info may be stored as different contacts on your phone. In this case, you need to link these contacts manually.

Open the People app and link them.

Copying and pasting a message

You can copy a previous message and paste it to the new message you're composing.

- In the **threads** list, tap a contact (or phone number) to display the exchange of messages with that contact.
- Press and hold the message you want to copy, and then tap **copy**.
- Tap the text box where you're composing your new message.
- To paste the copied message, tap .

Managing conversations

Forwarding a message

1. In the **threads** list, tap a contact (or phone number) to display the exchange of messages with that contact.
2. Press and hold the message you want to forward, and then tap **forward**.
3. Fill in the recipient.
4. Tap  to send.

Deleting a message

1. In the **threads** list, tap a contact (or phone number) to display the exchange of messages with that contact.
2. Press and hold the message you want to delete, and then tap **delete**.

Deleting a whole conversation

In the **threads** list, press and hold a contact (or phone number) whose messages you want to delete, and then tap **delete**.
