Hello Mike,

Re your questions, the answers are as below:

- 1) Please find attached plot of 99% Bandwidth.
- 2) Please find the revised SAR Report
- 3) Please find the updated FCC ID Label.

Thank you for your review.

Helen

Notice\_content

-----  
Question #1: Emission designator listed on the TCB application form is 240KGXW. Please justify necessary bandwidth by providing supporting data for 240K.

Question #2: The FCC ID label listed on the SAR report is different than the one listed on the TCB application form. Please make necessary correction.

Question #3: Please indicate the FCC ID label location on the device. The proposed FCC ID label location does not indicate the location.

Best Regards

Mike Kuo

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
