Subject: FCC Equipment Authorization System

1) Test results for 802.11 only were voluntarily included and not pertinent to the HAC Rating. Note C63.19 does not address what articulation weighing factor should be used for 802.11 and traffic activity for the 802.11 channel was not established for establishing the modulation index.

Response:

Dear Stanley,

Thanks for the info. We, High Tech Computer Corp, will not include 802.11 only mode in the HAC rating. Due to approaching marketing time, we would greatly appreciate your help on issuing the grant ASAP. Thank you again.
