FINAL TEST DATE: April 1st, 2004
REPORT DATE: April 21^h, 2004
TEST ENGINEER: Chris Anderson

Objective

561 Hillgrove Avenue • LaGrange, Illinois • 60525-5997 • U.S.A.
Phone: (708) 354-1040 • Fax: (708) 354-2820 • <http://www.grayhill.com>

With this submittal Grayhill seeks FCC certification for a portable data radio device. This device contains a pre-certified part 15.90 radio module manufactured by MDS, FCC ID E5MDS-ROR220. Grayhill's product supplies a power system, antenna and input/output apparatus to fulfill the products function. Grayhill seeks a new certification, which includes the entire Grayhill product.

It is assumed that since the antenna gain is so low and the MDS module is being used within it's stated limitations that the only additional data required should be a description of the antenna and it's RF exposure implications.
