

Confidentiality Request

Any proprietary information submitted pursuant to this application for Type Acceptance shall be withheld from public disclosure under the provisions of Section 0.457(d) of the Commission's Rules and Section 552(b)(4) of the Freedom of Information Act.

These sections authorize withholding from public inspection materials which would be privileged as a matter of law if retained by the person submitting them and the materials would not customarily be released by that person. The materials included (schematics, block diagrams, and BOMs) and submitted fall within the scope of the above sections and should receive confidentiality as trade secrets and should not be specified as material routinely available for public inspection without written approval from LGC Wireless.
