

Incorrect Applicant TIN

There is some incorrect data on my submission on behalf of LGC Wireless for our 800 MHz system. The identifiers are as follows:

Form 731 Confirmation Number: EA96209

FCC ID: NOODAS8-4-W

On the Form 159, remittance ID 31839, Authorization number 791948, I used my Social Security Number on the payer TIN line of the form (since I'm using my own credit card to pay). Now, the LGC TIN (applicant) is listed as the payer TIN on the form as well. The form does not allow me to enter the applicant TIN separately so it uses the payer TIN by default.

The correct applicant TIN is 943222283. Please correct this error. I believe the form 159 may have a bug in it with regards to this item.

Thanks,

John Dorsey
