

Note existing already on the certificate:

Power Output listed is Conducted. The antenna(s) used with this transmitter must be professionally installed. The antenna(s) used with this transmitter must be installed to provide a minimum separation distance of 23cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. Only those antenna(s) or similar tested in this filing may be used with the transmitter. High gain antenna(s) with a gain over 6dBi must use reduced power levels in accordance with 15.247(b). End users and installers must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance.
