RE: FCC ID: NP4-2422240510\_ATCB003081  
Attention: Mark A. Christensen

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the installation manual states "The Field Programming Software allows the user to edit and program user programmable settings, interactively tune modem and RF parameters." Because the statement says the software can tune rf parameters, this indicates that the device may be a software defined radio. Please explain what this statement means and please clearly identify if this is a software defined radio.
2. FYI – as this device also appears to connect to a computer, FCC part 15 issues should be addressed.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
