

Calamp Wireless Networks Corporation  
Waseca, Minnesota

Calamp Wireless Networks Corporation hereby requests that our grant for NP4-5016-500 list frequencies outside of the FCC allocated Part 90 frequencies per FCC 2.807. The reason for this request is that Calamp Wireless Networks Corporation has United States government and military customers that require use of these frequencies.

A handwritten signature in black ink, appearing to read "Chris Ludwig". The signature is written in a cursive, flowing style.

Chris Ludwig  
Director of Engineering
