Request to add Model variant added to grant

FCC ID: NQ8PX013ANM

Model Type : XG1v3

Model Numbers : PX013ANM
PX013ANC

Hello,

We have recently submitted a product for FCC approval. There is a product variant PX013ANC that we would wish to include on the grant. The models are identical apart from the installed cable card (Primary model is PX013ANM where M represents Motorola Cable Card and the variant has last designator C, which represents Cisco cable card). There is no change whatsoever to the wireless component of the product.

I have modified the application form accordingly.

Description	PX013ANM Original	PX013ANC Variant
FCC ID	NQ8PX013ANM	NQ8PX013ANM
Cable card Type	Motorola	Cisco
